To Whom It May Concern

We agree on everything that is recommended by the UTC.

We have implanted the banquet permit to drink on the limo bus rule since day 1.

The only thing is a chaperone should not be required for kids under 21. Even if such rule is implemented, how will the UTC enforce it? The main idea for the new law is to remove the term operating within a city limit so there is no loop hole for illegal charter bus companies.

We currently have a no alcohol policy with minors, even if there is one minor and the rest are adults we will not have alcohol on the bus. All under 21 functions (mainly school dances, we have the parent sign the agreement and also to be there when we load the passengers. We do not allow backpacks on the bus too. If everyone follows strict laws then we should have no problems.

Regards

Jess Sandhu
