**Re: Service Area Expansion – West Richland Keene Road Corridor Expansion
 UG-190662-3rd Supplemental**

Dear Ms. Maxwell:

After consultation with Washington Utilities and Transportation Commission (“WUTC”) Staff, Cascade Natural Gas Corporation, (“Company”), submits the following answers in response to questions from WUTC Staff in this docket:

- 1) How many customers are being served in each area requested in Docket UG-190662?
 - a) Exhibit A1: 10 customers
 - b) Exhibit A2: 200 customers
 - c) Exhibit A3: 120 customers
 - d) Exhibit A4: 106 customers
 - e) Exhibit A5: 570 customers

- 2) How much of each of the above five areas have been completed? If not complete, how far along is each project?
 - a) Exhibit A1: 60% complete; under construction.
 - b) Exhibit A2: 40% complete; city and developer are working on planning and permitting.
 - c) Exhibit A3: 0% complete; city and developer are working on planning and permitting.
 - d) Exhibit A4: 0% complete; city and developer are working on planning and permitting.
 - e) Exhibit A5: 25% complete.

The original filing representation of proposed projects has changed in the last two years since this filing was originally submitted. Some of the proposed projects have been modified while others are being developed. Nonetheless, the Company’s original certificate of service expansion is extensive enough to cover any new expansion service area in West Richland.

If you have questions on this information, please contact me at (208) 377-6015.

Sincerely,

/s/ Lori Blattner
