**RE: Docket UE-190908—PacifiCorp's Revised 2020-2021 Biennial Conservation Plan**

On November 1, 2019, PacifiCorp dba Pacific Power & Light Company submitted its 2020-2021 Biennial Conservation Plan to the Washington Utilities and Transportation Commission. During review of the Company's plan, Commission staff identified inconsistencies in Table 2. 2020-2021 EIA Target and EIA Penalty Threshold. Specifically, the EIA Penalty Threshold inadvertently included the Decoupling threshold. The revised plan includes a corrected Table 2.

Staff also requested that information on customer meter / site savings to be added in addition to the generator savings to assist in comparing conservation targets between utilities.

The revised Biennial Conservation Plan includes changes on the following pages:

Page 4—adds summary of changes

Page 8—revises references to EIA penalty threshold in text immediately above Table 2

Page 8—revises Table 2 to align with staff memo dated December 5, 2019, and adds site savings

Page 21—revises references to EIA penalty threshold in text immediately above Table 5

Page 25—revises Table 5 to align with staff memo and adds site savings

For inquiries, please contact Ariel Son, Regulatory Affairs Manager, at (503) 813-5410.

Sincerely,
