Olympia, WA 98504-7250  
Docket #120767 (and UG-120768)

RE: Comments on Puget Sound Energy's Integrated Resource Plan

Dear Chairperson Danner and Commission Members,

As congregants of Grace Episcopal Church on Bainbridge Island, we are very disappointed that Puget Sound Energy is planning to continue financing its dirty, dangerous, and increasingly expensive coal plant for another 20 years.

There are cleaner, safer, and less risky alternatives. PSE's plant may require hundreds of millions of dollars to clean up its dirty air, water, and mining waste.

Now is the time for PSE to be honest about the true cost of keeping a dying coal plant on life support. This is not where we want our next energy dollars spend. We urge the Commission to critically evaluate PSE's long range plan and have them incorporate the true cost of coal.

Best Regards,
