REDACTED VERSION

UE-230172 / PacifiCorp July 17, 2023 WUTC Data Request 86

### WUTC Data Request 86

**Colstrip Major Plant Additions -** PacifiCorp's responses to Staff Data Request Nos. 36 and 37 indicate that the finishing superheat section and the condenser tube replacement projects have been cancelled from the 2024-2025 maintenance plan for Colstrip Unit 4.

- (a) Please provide revised work papers for Adjustment 10.6 and Adjustment 14.7 reflecting the cancellation of the finishing superheat section and the condenser tube replacement projects—as well as any other changes that have been made to the 2024-2025 maintenance plan for Colstrip Unit 4—and the removal of amounts related to projects that have been cancelled from the 2024-2025 maintenance plan for Colstrip Unit 4.
- (b) Please provide work papers supporting the calculation of the gross plant additions the company includes in tab 10.6.6 of work paper SLC-10.6 and in tab 14.7.6 of work paper SLC-14.7, as revised per part (a) of this data request. Please provide gross plant additions by month and by project and indicate where amounts are actual versus forecasted.

#### **Response to WUTC Data Request 86**

- (a) Revised work papers are not available at this time. The Company does not routinely create interim copies of adjustment work papers during the discovery phase of a general rate case (GRC). Rather, the Company will update the adjustments and work papers for Adjustment 10.6 and Adjustment 14.7 to incorporate all identified changes and updates with the Company's rebuttal filing. This practice prevents from overwhelming parties with multiple versions of the same work papers and causing confusion over version control. Please refer to Attachment WUTC 86, which provides a calculation of the estimated revenue requirement impact of the cancelled projects using data previously provided with the Company's response to WUTC Data Request 22, specifically Attachment WUTC 22.
- (b) Please refer to the Company's response to subpart (a) above.
