Whidbey Telephone Company
FCC Form 481 (July, 2021), Line 610
Statement Describing Ability to Function in Emergency Situations
Per Instructions for Completing FCC Form 481

SUMMARY

Whidbey Telephone Company (the “Company”) has a long-standing tradition of providing reliable voice telephony services. Since 1961, it has been and continues to be the Company’s policy to bury all local distribution cable and wire. It is also the Company’s policy and standard operating procedure to install, and use when necessary, back-up power systems at all network node installation sites. In regard to the Company’s overall network design, the Company’s practices are consistent with Rural Utility Service (“RUS”) telecommunications industry best practices.

The Company operates and maintains transport transmission equipment of only the highest grade. Equipment specifications, which are consistent with the RUS specifications, require both redundant power and redundant circuit interfaces. All of the Company’s transport and switching equipment is monitored 24x7x365(366) by trained staff located at the Company’s network operations center.

NETWORK REDUNDANCY

The Company is a provider of voice telephony services to two geographically non-contiguous exchanges: the South Whidbey Exchange and the Point Roberts Exchange. The area of the Company’s South Whidbey Exchange service area is more than 67 square miles, and the Company’s Point Roberts Exchange service area includes approximately 6 square miles.

The Company has two Central Offices, South Whidbey and Point Roberts. The switch equipment is manufactured and supported by the manufacturer. The Point Roberts CO is connected to the Company’s South Whidbey CO via multiple diversely routed redundant facilities and is configured to maintain service in the event of a facility failure to the South Whidbey CO. The primary paths consist of a diversely routed optical fiber ring utilizing Synchronous Optical Network (“SONET”) technology. In addition, the Company operates a microwave transmission path between South Whidbey and Point Roberts, providing multiple DS-3s capacity which offers additional back-up capability.

The Company’s voice telephony network has diversely routed paths to multiple points of interconnection with the networks of other voice telephony carriers. The Company also operates an Ethernet optical ring that connects its South Whidbey network with collocation facilities utilized by the Company outside its service area. The combination of the optical ring architecture and the DWDM capability of the Company’s core transport equipment provides a highly reliable circuit network for voice telephony communications with substantial opportunity for augmentation, if demand volumes were to so require.

The Company's presence in collocation facilities allows for multiple points of interconnection with both local and regional carriers, giving the Company the flexibility to route traffic to multiple carriers. During service impairment created by physical damage or extraordinarily high traffic, the Company has the capability to reroute voice telephony traffic through any of those collocation facilities.

The network architecture within the Company's South Whidbey service area is comprised of a host CO and a number of core aggregation points, or Optical Remote Sites ("ORSs"). All of the ORS locations are connected by a physically diverse optical DWDM ring, with any of those locations being capable of maintaining service in the event of a failure of that physical fiber cable.

Connectivity to the end-user customer base is accomplished by the placement of a number of Broadband Loop Carrier remote terminals ("BLCs") that subtend the ORSs or host CO. Each of these BLCs has optical diversity between the main CO and serving ORS. Some of the BLCs also have physical route diversity connected to the CO or ORS that they subtend.

The Company's employees are trained to operate, maintain and/or repair the Company's network facilities. Qualified Company personnel are available for call-out 24x7x365(366) in the event of a service outage. The Company maintains an inventory of critical spare electronic/optronic cards, as well as cabinets, cable and other related materials necessary for restoration on site at both South Whidbey and Point Roberts.

BACK-UP POWER

The Company maintains a power plant at each CO, ORS, BLC and microwave site with batteries capable of carrying the power load for several hours with the load typically transitioning more immediately to a generator back-up power generation. For BLC sites without local generators, portable generators are deployed as needed.

In addition, the Company has installed back-up power generation at its COs, as well as at each of its ORSs and microwave installations. These generators range in size from 5kw to 750kw. Each generator has a dedicated fuel tank onsite designed to carry the power load for multiple days. All of these sites are equipped with automatic transfer switches and have monitoring equipment that provides monitoring visibility with respect to loss of external commercial power and transfer switch status. Upon recognition of loss of the commercial power source, the relevant automatic transfer switch is designed to automatically start the back-up generator and transfer the selected power source. Alarm messages are automatically reported to key personnel, as well as to the Company's 24x7x365(366) network operations center.

The Company has in-house staff trained to perform all maintenance of the power plant and has contract services available for support. Power distribution equipment within the Company's COs is inspected from time to time by vendor representatives to ensure proper maintenance. It is the Company's policy that all power plant maintenance be recorded and stored for future reference.

FCC FORM 481 (JULY 2021), LINE 1010
Descriptive Document for Compliance of Pricing of
Fixed Voice Services with Required Relationship
To Applicable National Average Urban Rate for Voice
Service Benchmark, as required by 47 C.F.R. § 54.313 (a)(10)
Per Instructions for Completing FCC Form 481

Section 54.313 (a)(10) of the rules of the Federal Communications Commission (“FCC”) requires any recipient of high-cost support, such as Hat Island Telephone Company (“Company”), annually to certify that the pricing of the Company’s voice services is no more than two standard deviations above the applicable national average urban rate for voice service, as specified in the most recent public notice issued by the Wireline Competition Bureau and Wireless Telecommunications Bureau.

The most recent such notice issued by the Wireline Competition Bureau is Public Notice DA 20-1409, released November 30, 2020, in WC Docket No. 10-90 (“Public Notice”). That public notice includes the following statements, “Based on the survey results, the 2020 rate floor for voice services is \$33.73, [footnote omitted] and the reasonable comparability benchmark for voice services is \$54.75. [footnote omitted]...In addition, each ETC, including competitive ETCs providing fixed voice services, [footnote omitted] must certify in the FCC Form 481 filed no later than July 1, 2021, that the pricing for its basic residential voice services is no more than \$54.75. [footnote omitted]” [Italics added.]

It is the Company’s understanding that the above-mentioned comparability benchmark includes the recurring residential service rate, any applicable State subscriber Line charge rate, any applicable State universal service fund rate, any applicable minimum mandatory Extended Area Service rate, and any applicable Federal subscriber line charge rate.¹

¹ See Note 5 on the “Data Dictionary” tab of the [2016 URS Voice Data.xlsx] located from the FCC webpage having the following URL:

<https://www.fcc.gov/general/urban-rate-survey-data-resources>

Those components for the Company's basic residential voice telephone service as of June 1, 2020, are as follows:

Recurring residential service rate	\$ 18.00
State subscriber line charge rate	0.00
State universal service fund rate	0.00
Minimum mandatory EAS rate	0.00
Federal subscriber line charge	<u>6.50</u>
Total	\$ 24.50

The sum of the above-identified rates (\$24.50) is not more than the voice service comparability benchmark identified in the Public Notice (\$54.75).

FCC FORM 481 (July 2021), Line 1030
Descriptive Document for Compliance of Pricing of
Broadband Services with Required Relationship
To Applicable National Average Urban Rate for Broadband
Service Benchmark, as required by 47 C.F.R. § 54.313(a)(12)
Per Instructions for Completing FCC Form 481

Section 54.313(a)(12) of the rules of the Federal Communications Commission (“FCC”) requires any recipient of high-cost support, such as Whidbey Telephone Company (“Company”), annually to certify that the pricing of a service that meets the Commission’s broadband public interest obligations is no more than the applicable benchmark to be announced annually in a public notice issued by the Wireline Competition Bureau, or is no more than the non-promotional price charged for a comparable fixed wireline service in urban areas in the states of U.S. Territories where the eligible telecommunications carrier receives support.

The most recent such notice issued by Wireline Competition Bureau is Public Notice DA-20-1409, released November 30, 2020, in WC Docket No. 10-90 (“Public Notice”). That public notice includes the following: “Under the approach adopted by the Bureau in 2014, the reasonable comparability broadband benchmark varies, depending upon the supported services download and upload bandwidths and usage allowance. [footnote omitted]”

The Public Notice includes a table showing the “benchmark” rate for certain broadband service offerings and provides a URL link to an FCC webpage at which a tool to calculate “benchmarks” for other broadband service offerings may be found. The following table summarizes the broadband service plans offered to consumers by the Company and the associated “benchmark,” as determined from the Public Notice or the “tool” to which it refers:

Download Speed (Mbps) (up to)	Upload Speed (Mbps) (up to)	Usage Allowance	Benchmark	Company Pricing
10	3	Unlimited	\$85.88	\$ 43.00
20	3	Unlimited	\$86.93	\$ 50.00
30	3	Unlimited	\$86.04	\$ 60.00
30	10	Unlimited	\$97.14	\$ 70.00
50	10	Unlimited	\$104.79	\$ 80.00
50	20	Unlimited	\$106.16	\$ 90.00
100	100	Unlimited	\$102.80	\$ 60.00
300	300	Unlimited	\$112.81	\$ 80.00
1000	1000	Unlimited	\$120.26	\$ 90.00

As shown in the above table, each of the broadband service plans offered to consumers by the Company, for which, "benchmark" rates are available, is offered at a price that is below the applicable "benchmark."

July 1, 2021

Ms. Marlene H. Dortch, Secretary
Federal Communication Commission

RE: WC Docket No. 10-90 and 14-58 –
Annual Report Due July 1, 2021, FCC Form 481 for
Rate of Return Carriers Receiving High-Cost Support
47 C.F.R. § 54.313(f)(1)(i) “Public Interest Certification”

Dear Ms. Dortch:

In compliance with the filing requirements associated with FCC Form 481 due July 1, 2021, and in compliance with Section 53.313(f)(1)(i) of the Commission’s rules, Whidbey Telephone Company (Study Area 522452) hereby certifies that it has taken reasonable steps to provide upon reasonable request broadband service at actual speeds of at least 25 Mbps downstream/3 Mbps upstream, with latency suitable for real-time applications, including Voice over Internet Protocol, and usage capacity that is reasonably comparable offerings in urban areas, and the requests for such service were met within a reasonable amount of time.

Sincerely,

WHIDBEY TELEPHONE COMPANY

By 

Gary Ricketts
Secretary /Treasurer

1501 Regents Blvd., Suite 100
Fircrest, WA 98466-6060

Independent Auditor's Report

Board of Directors
Whidbey Telephone Company
Langley, Washington

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Whidbey Telephone Company and Subsidiaries, which comprise the consolidated balance sheets as of December 31, 2020 and 2019, and the related consolidated statements of income, stockholders' equity and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

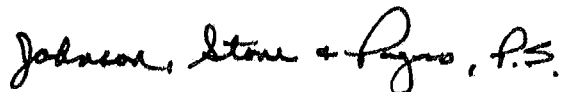

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Whidbey Telephone Company and Subsidiaries as of December 31, 2020 and 2019, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The supplementary information is presented for purposes of additional analysis of the consolidated financial statements, rather than to present the financial position, results of operations and cash flows of the individual companies, and it is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements, or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

4005 Rural Broadband Experiment

Authorized Rural Broadband Experiment (RBE) recipients must address the certification for public interest obligations and provide a list of newly served community anchor institutions.

Public Interest Obligations – FCC 14-98 (paragraphs 26-29, 78)

Please address Line 4001 regarding compliance with the Commission's public interest obligations. All RBE participants must provide a response to Line 4001.

4001. Recipient certifies that it is offering broadband meeting the requisite public interest obligations consistent with the category for which they were selected, including broadband speed, latency, usage capacity, and rates that are reasonably comparable to rates for comparable offerings in urban areas.

RBE Community Anchor Institutions

<4003a> Indicate if the carrier newly deployed broadband service to community anchor institution(s) in the previous calendar year

<4003b> Please Provide Attachment: Using link, download template and list the number, name and address for each community anchor institution. Attach the document which contains the community anchor institution details as required by FCC 14-98 (paragraph 79)
