STATE OF WASH.
UTIL. AND TRANSP.
COMMISSION

**BEFORE THE WASHINGTON UTILITIES AND
TRANSPORTATION COMMISSION**

In the Matter of)
) DOCKET NO. UT- 041127
THE JOINT PETITION FOR)
ENFORCEMENT OF) AFFIDAVIT OF MICHAEL
INTERCONNECTION AGREEMENTS) DAUGHTRY, VICE PRESIDENT OF
WITH VERIZON NORTHWEST, INC.) OPERATIONS FOR UNICOM
(a/k/a GTE))

STATE OF OREGON)
) ss
COUNTY OF DESCHUTES)

- 1 1. I, Michael E. Daughtry, Vice President of Operations for UNICOM,
affirm and swear as follows.
- 2 2. As Vice President of Operations, my job responsibilities include, but are
not limited to, overseeing network design, contracting for services, and maintaining
relationships with service providers.
- 3 3. UNICOM received Verizon's letters of June 8, 2004 and July 20, 2004
advising UNICOM of Verizon's intention to discontinue the provision of unbundled
switching out of its Mt. Vernon, Washington switch.
- 4 4. UNICOM and Verizon have entered into an interconnection agreement for
the state of Washington. The Commission approved the interconnection agreement on July
21, 2001 in Docket No. UT-013061.

5 5. Our interconnection agreement with Verizon requires Verizon to provide
unbundled network elements, including unbundled switching. The pertinent section of the
interconnection agreement is 10.1.1 (see section II.16. of the Joint Petition for enforcement)
of the “Unbundled Network Elements (UNEs) Attachment” to our interconnection
agreement.

6 6. UNICOM provides local voice services to end user customers in the state
of Washington. We rely on our interconnection agreement with Verizon to provide those
services in Verizon's local territory. UNICOM relies on the ability to purchase unbundled
switching in order to provide all of its local services to residential and small business
customers in Verizon territory in the state of Washington. UNICOM provides its
local product in Verizon's territory using Verizon's unbundled network elements platform
("UNE-P").

7 7. UNICOM began marketing its local services in the Verizon territory in
Washington in the second quarter of 2002. UNICOM provides local exchange services for
more than 200 customer lines served by Verizon's Mount Vernon, Washington switch
through the purchase of Verizon's UNE-P product.

8 8. Verizon ceased accepting orders for UNE-P relating to its Mount Vernon
switch on or about August 27, 2004. As a result of this action, UNICOM will suffer a
reduction in gross profit margin of approximately \$22 per line. Additionally, UNICOM
would immediately stop offering service to new customers in the Mount Vernon area. The
reduction in gross profit margin will have to be passed on to the customer thereby increasing

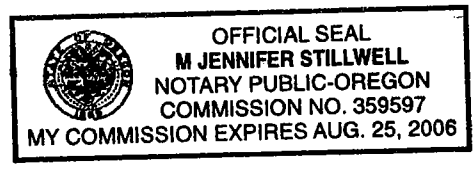

//
//
//
//

their cost. The customer's cost increase will almost certainly cause the customer to seek lower costs elsewhere. The only provider who can offer lower cost service is Verizon.

Michael Daughtry

STATE OF OREGON)
COUNTY OF DESCHUTES) SS

Signed and sworn to before me on 9/16, 2004, by Michael E. Daughtry.
