

Docket # T S 042184

We are very opposed to the application of Mike Bennett to run a foot ferry from the Harper Dock to Seattle.

Safety is our primary concern, the dock juts out from a dangerous corner of Southworth Drive.

Cars have hit the guard rail there many times.

Parking is our other concern. WSDOT moved the state ferry dock from this location many years ago because of the parking problem. Why would it work today?

Please keep us informed on any hearing or actions taken regarding this application and any other applications made concerning the Harper Dock.

Thank you,  
Robert & Judy Peterson
