Mr. David Danner, Executive Secretary
Washington Utilities and Transportation
Commission
1300 S. Evergreen Park Drive SW
Olympia, WA 98504

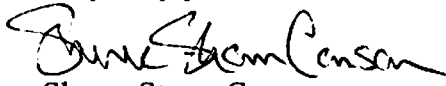

**Re: PSE's Petition for an Emissions Performance Determination
WUTC Docket No. UE-082128**

Dear Mr. Danner:

Enclosed for filing in the above-referenced docket, please find a letter of determination from the Washington State Department of Ecology ("Ecology") regarding Puget Sound Energy, Inc.'s ("PSE") Mint Farm Energy Company combined cycle combustion turbine plant ("Mint Farm"). Ecology issued this letter after PSE filed its Petition in the above-referenced docket. As the letter states, Ecology believes that Mint Farm does and will continue to meet the greenhouse gas emission performance standard in WAC 173-407-130.

PSE provides this letter to the Commission as a supplement to Section 4, Exhibit A of its Petition pursuant to WAC 480-100-415(1)(b)(ii), which requires that "any determination made by the department of ecology . . . regarding compliance with the greenhouse gases emissions performance standard" be included in the application. Section 4, Exhibit A of the Petition advised the Commission that such supplementation would occur as additional documents are received by PSE.

Very truly yours,

Sheree Strom Carson
