

Docket UE-110523
RPS Workgroup Report Attachment 3
Consensus: June 2012 Defined Report Filing
January 31, 2012

UE-110523

Energy Reporting Renewable Portfolio Standard (RPS)

Consensus Notes:

Workgroup consensus on product outcome definition of Workshop #6

November 15, 2011

Notes:

- Consensus:
 1. June 2012 report filing:
 - a. Renewable Energy Credits (RECs) owned or under contract by 1/1/2012
 - b. 2012 target for REC's = average annual load for 2010 and 2011
(Actual load, not weather adjusted.)
(Load cite: 19.285.030 (12), WAC 480-109-007 (12))
 - c. 06/01/2012 Report: 2012 target REC's "in hand" by 01/01/2012, plan for any shortfall (if actual wind generation is low or "in hand" less than actual target.)
 2. January 2012:
Internal documentation will demonstrate:
 - a. actual load as known;
 - b. estimates of load for most recent months;
 - c. Renewable energy credits or resources owned or under contract sufficient to meet the target year standard by January 1, 2012.

Note – confidential data/commercially sensitive data may be filed with the Washington Utilities and Transportation Commission.
