1. WAC 480-123-130(1)(a) - Access Lines Served [NECA 1.3 working loops]

	January 1, 2019	December 31, 2019
Residential	2,670	2,747
Business	459	465

2. WAC 480-123-130(1)(b) - Use of Support

The funds received by the Company from the universal communications services program in calendar year 2019 represent monies that the Company formerly received through the Washington Exchange Carrier Association (WECA) pooling process and the reduction of support under the Federal Communications Commission's (FCC's) Connect America Fund InterCarrier Compensation (CAF ICC) program. As such, the funds from the universal communications services program contributed to defrayal of the ongoing operation and maintenance expenses of the Company. The funds from the universal communications services program are contributing to the Company's ongoing provision of high-quality basic telecommunications service to customers residing in the area the Company serves.

In December 2019, the Company received \$322,149 from the universal communications services program for the fiscal year ending June 30, 2020.

During the first six months of 2020, the Company opened major projects to: 1) expedite service at DSA413005 Schoonover (\$23,000); 2) Copper Bonding (\$13,000); 3) Bury Drops (\$48,000); 4) Vehicle - Hadaller 2020 F450 4X4 (\$105,000); and 5) Install line extensions (\$38,000). In addition, the Company plans to spend \$288,000 on A-CAM projects to improve broadband speeds relating to Phase 1 of A-CAM commitments during 2020. The funds received from the universal communications services program can be viewed as contributing to the Company's ability to perform these projects and helping to recover normal operating expenses. The Company opens all major projects that are budgeted early in the year thus those described above will continue throughout 2020 in addition to routine maintenance, cable additions and other projects as needed.

3. WAC 480-123-130(1)(c) - Unfilled Consumer Requests for New Basic Telecommunications Service\*

None

\* Service requests that are ongoing, but still within normal processing times are not counted as unfulfilled.

4. WAC 480-123-130(1)(e) - FCC Form 477

This form was previously filed on or about March 1, 2020 under Docket UT-200002.

5. WAC 480-123-130(1)(f) - Report on Operational Efficiencies/Business Plan Modifications

The Company is part of a major holding company which results in efficiencies and economies of scale that are not available to most Rural LECs and there are on-going efforts to find more ways to cut costs while improving broadband service and continuing to provide high-quality basic telecommunications services. The funds received from the universal communications services program can be viewed as assisting in the Company's efforts to obtain operational efficiencies.
