This past couple of weeks have been very exciting here at Montesano Junior/Senior High School. The first round of WASL testing for our sophomores has been completed. Class registration for next year's students has been finalized. Spring sports have begun with high hopes and expectations for continuing our tradition of post season play, and the senior activity calendar for their last two and a half months of school will be sent home to parents this week.

This year the Office of Superintendent of Public Instruction decided that the WASL was to be

taken during two testing times rather than the one testing time as in previous years. The first

week of testing was last week, and the second week for our sophomores will be the week of April 17-21. Our seventh and

eighth graders will be tested for two weeks - April 17-21 and April 24-28. We have been working hard to prepare our students through advisories and specific class instruction. A special thanks to our "WASL Team" - Tami Herzog, Alec Pugh, Sue Duvall, and our Culminating Project/WASL Coordinator, April Pocklington - for all of their time, energy, and effort expended to help with the success of our students.

The Counseling Department has successfully completed the registration process and is now planning for next year's class

schedule. Along with the requirements offered, we provided our students with several options, and to our delight they have taken the challenge. We will be providing a number of Advanced Placement and college courses next year: AP US Government, AP Comparative Government, AP Calculus, AP Literature, AP US History, College Math Analysis, Accounting, DigiTools, and Advanced Metals. A number of teachers, counselors, and administrators have been meeting, and will continue to meet throughout the spring, and discussing possibilities for more educational opportu-

## Elma Elementary meeting set, students get 'hands-on'

Last year our building adopted a new science curriculum that has focused on "hands on investigations." Throughout the year students have been engaged in many activities that have been fun and informative. On March 17th our school hosted an assembly called "Science Fun and Fact." During the show our students were presented with multiple scientific facts about physics, biology, and chemistry in a fun, hands-on format. The assembly was held at Grays Harbor high school and plan to be graduating in the class of 2006.

During the week of April 24-28, parents and guardians have the opportunity to give us feedback on the placement of their children for the upcoming school year 2006/2007. If you would like to provide feedback you can pick up a form to fill out and schedule an appointment with the principal during that week. We do not allow requests for teachers, but ask that parents

In addition to reading and math, fourth grade will test in the area of writing, and fifth grade will test in the area of science. We are asking that parents please pay special attention to the sleep and nutritional needs of their children and avoid absences if at all possible during the test-

### Basic Lifeline Plans

#### Plan Overview

U.S. Cellular\* participates in the Lifeline and Link-Up programs which provide affordable telecommunications services in markets in which U.S. Cellular is designated as an Eligible Telecommunications Carrier (ETC).

#### Plan Qualifications

Eligibility for Lifeline and Link-Up varies by state. If you reside in a state that has its own Lifeline discount program and meet its eligibility requirements, you qualify for federal Lifeline and Link-Up support.

- Food Stamps
- Low Income Home Energy Assistance Program (LIHEAP)
- Medicaid
- National School Lunch Program (free lunch program)
- Supplemental Security Income (SSI)
- Temporary Assistance for Needy Families (TANF)

In addition, you may be eligible if your household income is at or below 138% of the federal poverty guidelines. If you qualify for Lifeline discounts based on the income guidelines, you will need to verify with current documentation.

- Link-Up America helps customers with wireless activation costs. Through Link-Up, U.S. Cellular waives the activation fee to make wireless service more affordable.
- Lifeline Assistance Program provides discounts on monthly wireless service. Eligibility to receive Lifeline discounts is determined by each ETC state.

### Plan Qualifications

To receive Tribal Lifeline and Link-Up support, you must reside on land that meets the Bureau of Indian Affairs definition of "reservation." Specifically, any federally recognized Native American tribe's reservation.
