Subject: RPOA does not support Washington Water's proposal to take over the Highlands System

September 27, 2007

Dear Commissioners:

RPOA does not support the latest proposal for Washington Water to take over the Highlands System.

We have just received a copy of Mike Ireland's proposal to take over the Highland's System for \$60,000.

We were in agreement when the takeover price was one dollar, as it provided a level playing field for the 3 Homeowner groups of about 250 families. We cannot support the \$60,000 figure or any other amount more than a dollar without knowing how the proposed transaction would be equitable for all the rate payers of Rosario and Vusario, about 150 families.

Sincerely,

Rosario Property Owners Association.
