Attn: Cheryl A Zakrzewski, Assistant City Attorney

RE: Puget Sound Energy Wrapped Steel Services Assessment Program Risk Model Results (Docket PG-041624)

Dear Ms. Zakrzewski,

Pursuant to Docket PG-041624 (Wrapped Steel Services Assessment Program Second Settlement Agreement), Puget Sound Energy (PSE) is providing you the results of the 2007 risk model run for those services within the City of Bellevue. The attached table summarizes the population of services within each mitigation category based upon the risk results.

There are no services that fall within the Priority Replacement mitigation category based upon the 2007 model run. The 24 services that were identified based upon the 2006 model run will be replaced by December 31, 2007.

The change in population in the Scheduled Replacement; Increased Leak Survey; and Standard Mitigation categories is due to:

- a) *A revised methodology for extracting services within the City of Bellevue from the overall project population;*
- b) *Services removed from the population because of replacements through this program as well as normal O&M activities.*
- c) *Data updates resulting in revised mitigation plans.*

If you have any questions, please call me at 425-462-3734.

Sincerely,

A handwritten signature in black ink that reads "Stephanie J. Kreshel". The signature is written in a cursive style with a large, looped initial 'S'.
