Re: Docket No. UT-081973; Level 3 Communications, LLC's Objections to Qwest Corporation's Advice No. 3653T, Proposed Revisions to Its Washington Access Services Tariff No. WN U-44

Dear Mr. Danner:

On November 21, 2008, Level 3 Communications, LLC ("Level 3") filed an objection to Qwest Corporation's ("Qwest") Advice No. 3653T, Revisions to its Washington Access Services Tariff No. WN U-44. Upon further investigation Level 3 has determined that Qwest's proposal to revise its current practices concerning Jurisdictional Report Requirements will not have a significant adverse financial impact on Level 3, because Level 3 purchases most, if not all, Feature Group D ("FGD") services from Qwest from Qwest's interstate tariff, which does not contain a percent interstate usage ("PIU") floor for indeterminate traffic. Accordingly, Level 3 has decided not to pursue its objection and requests that its November 21 objection letter be withdrawn.

Sincerely,

ATER WYNNE LLP

Arthur A. Butler
