Dear Commissioners,

I am concerned about climate change and the pollution caused by burning fossil fuels. Please ask PSE to close all Colstrip plants by 2025 and replace them with 100% renewable energy. Since we have an administration that has put greed over world health, it is up to us at a local level to initiate change. Since we have so much technology to support wind and solar power it's time to move from toxic sources of energy. No more fossil fuels!!!!

Sincerely,
Norah M. Sullivan
