The Stehekin Community,

We are excited to finally announce that the Stehekin Ferry will be back up and running on June 11. This has been a long process but it looks like it is finally coming together. After finding the damage to the SunnyJo last year we immediately started looking for options. We eventually decided on building completely new hulls. Thanks to the help from a lot of friends and a longtime professional boat builder who came and helped us, the project is almost complete. The boat will be about eight feet longer than it was and have a larger back deck, other than that it will look similar to what it did before.

We would like to thank you all for your patience during this time and for your continued support of our little company. We plan to offer the same service on the same schedule that we did last year. Reservations can be made the same way at Stehekinferry.com. We have been taking pictures throughout the build and plan to put something together if anyone is interested in seeing how the build process works. This has been a big education for us and we hope that it better equips us to serve you all going forward.

Sincerely,

Colter Courtney
