- Attachment 14: Qwest Proposed OSS Release Calendar Language - Revised 04-04-02
- Attachment 15: Qwest Proposed Production Support - Help Desk Language - Revised 04-04-02

MEETING MINUTES

The meeting began with introductions of the meeting attendees. (Refer to Attachment 1 for attendance record) Judy Lee, the meeting facilitator, reviewed the three-day agenda (Attachment 2).

Qwest-initiated Product/Process Change Request Initiation Process

Level 0

Schultz-Qwest began by stating that several members of the core team reviewed Product/Process notifications issued from 2/1-3/15 at a sub-team conference call meeting on March 28th. She then reviewed the sub-team meeting and discussed that Level 0, Level 1 and Level 2 change categories had been discussed in that meeting. She stated that the team touched on Level 3 and Level 4 change categories, and that the team agreed to work on those levels during the first day of Redesign on April 2. She stated that the team developed a Level 0 list, and that Qwest had additional items to add to the category. Schultz stated that the document had been updated to reflect the changes from the sub-team meeting (Attachment 3). Maher-Qwest stated that Level 0 list of categories was developed from a list sent by Clauson-Eschelon. Travis-WorldCom asked what Level typos in numbers would fall into. Schultz-Qwest stated that typos were Level 0, and that Level 0 changes do not include interval changes. Menezes-AT&T

for any change that went into the pipeline after April 1. Clauson-Eschelon stated that she wanted to stop getting Level 0 type changes as soon as possible.

Lee asked if CMP Improvements could be closed in concept. Dixon-WorldCom stated that it couldn't because of the open issue on PID/PAP. Lee stated that action item #231 could be closed, and that the team did not agree in concept. Menezes-AT&T stated that the matrix would be ongoing.

The team then adjourned for lunch and the Local Service Freeze Clarification Call. When the call ended and the team returned from lunch the Special Meeting on Retail Parity started. (See CMP Redesign Special Retail Parity Meeting Minutes April 4 2002- DRAFT 04-11-02)

After the meeting Lee asked if Covad Issue #3 could be closed. Menezes-AT&T asked about the Wholesale Retail Checklist. Schultz-Qwest stated that it had been updated. Lee stated that because Covad was not available, the issue would stay open for more discussion.

V.f SGAT- Gap Analysis #148, 149, 155, Action Item #227

Lee asked if the reason for review was to insert the language in the Master Redline. Crain-Qwest stated no, the issue raised was about the language in the SGAT referencing CMP. The team wanted to review again after the CMP was more developed. Crain and Menezes crafted language. Lee asked the team if the issue could be closed in concept. Team agreed. Action item #115 closed.

ICA vs. CMP: AT&T e-mail, action item #227

Lee stated that the ICA information could be inserted into the Scope section (Attachment 12). Lee asked if action item 227 and Gap 148, 150 and 155 could be closed. Team agreed.

Dixon-WorldCom stated that there were no impasse issues in Colorado, and that there may be a PID/PAP issues in other states. Crain-Qwest stated that Qwest would operate under the Colorado ruling for all other states. Dixon-Qwest stated that it needed to be summarized that the team had agreed in concept on all the issues and that there are no impasse issues. He continued that the team had built one of the better CMP processes in the country. Menezes-AT&T stated that he agreed to everything in concept. Dixon-WorldCom stated that the team had completed what he had hoped to accomplish. He continued that the team had walked through the issues and resolved them in concept and that there are no impasse issues. Lee summarized that all "1" items were agreed to in concept. The following "0" items were also agreed to: I.A.10 agreed in concept and pending modifications to language, I.A.4 closed—language baselined, I.A5 closed—language baselined with new action item #272, V.b terms closed—language baselined, V.e closed—language baselined, V.f agreed on concept—pending modifications to language, Covad #1 closed—language baselined, Covad #2 agreed on concept—pending language, Covad #3 open—CLECs to review documentation, and WorldCom—CMP improvements document will be revised on an ongoing basis as needed. Clauson-Eschelon stated that she would review the CMP improvements and provide feedback. Dixon-WorldCom stated that Qwest and the CLECs agreed on PID/PAD.

I.A.9 Late Adder

Lee moved the team to Late Adder language (Attachment 13). Language was crafted on the screen. Lee asked if the language could be added into the Master Redlined Document. Team agreed. Action item #254 and I.A.9 were closed.

OSS Release Calendar Language

Menezes-AT&T asked if this was for all Qwest OSS interfaces (Attachment 14). Thompson-Qwest stated that it applied to all interfaces under the scope of CMP. Menezes-AT&T asked if that was using the defined term in the document. Thompson-Qwest stated it was. Lee asked if the definition was also true for retirement of interfaces. Thompson-Qwest stated yes, it was included in the language. Menezes-AT&T asked what would happen if the CLECs wanted to

Attachment 12

Action Item 227 – AT&T Proposed ICA vs CMP Language – Revised 04-04-02

Deleted: 03-21-02

4/2/02: Redesign Team agreed on language and to insert into Master Redline under Scope

Following is Section 2.3 from the Qwest SGAT:

2.3 Unless otherwise specifically determined by the Commission, in cases of conflict between the SGAT and Qwest's Tariffs, PCAT, methods and procedures, technical publications, policies, product notifications or other Qwest documentation relating to Qwest's or CLEC's rights or obligations under this SGAT, then the rates, terms and conditions of this SGAT shall prevail. To the extent another document abridges or expands the rights or obligations of either Party under this Agreement, the rates, terms and conditions of this Agreement shall prevail.

As it is not appropriate to insert the foregoing verbatim into the CMP master redline document, AT&T proposes the following language for discussion by the Core Team:

In cases of conflict between the changes implemented through the CMP and any CLEC interconnection agreement (whether based on the Qwest SGAT or not), the rates, terms and conditions of such interconnection agreement shall prevail as between Qwest and the CLEC party to such interconnection agreement. In addition, if changes implemented through the CMP do not necessarily present a direct conflict with a CLEC interconnection agreement, but would abridge or expand the rights of a party to such agreement, the rates, terms and conditions of such interconnection agreement shall prevail as between Qwest and the CLEC party to such agreement.

Deleted: and the abridgement or expansion will not be permitted.
