April 24, 2001

Douglas Kilpatrick Director, Pipeline Safety Division Utilities and Transportation Commission 1300 S. Evergreen Park Drive SW Olympia, WA 98504-7250 DI APR 25 AMIO: 3

Subject: Request for written authorization under WAC 480-93-030

Dear Mr. Kilpatrick:

This letter is a request for written authorization under WAC 480-93-030 for a proposed service at 2045 E. Bakerview Road in Bellingham. The building is used as a workshop and warehouse by United Rentals. Photographs and a plan of the area are attached.

This service will tap Cascade's 8 inch Bellingham High Pressure Line. This line has a maximum allowable operating pressure of 380 psig. The high pressure line is currently 8 feet from the customer's building.

There will be an extension of the high pressure line 8 feet from the existing line to the location of the high pressure regulator and meter set. This location was chosen as the best accessible area removed from vehicular traffic and the propane storage tanks. The propane is fuel for rental equipment; the tanks will remain after we install the service.

Please contact either Marshall Carpenter at (206) 381-6722, or me at (206) 381-6734 at your earliest convenience.

Meissu >

Sincerely,

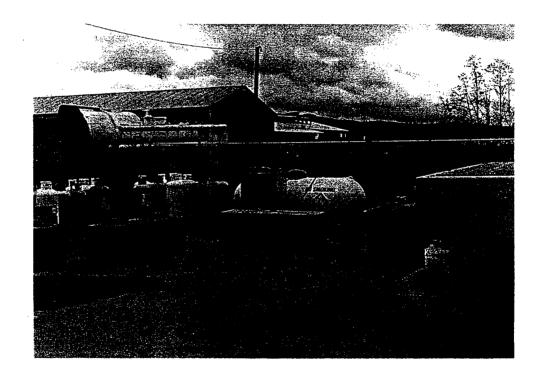

Keith Meissner

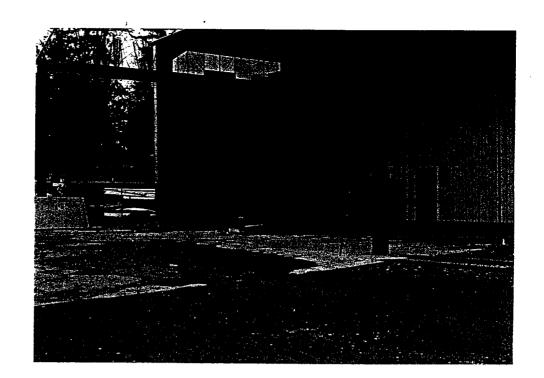

Compliance Engineer
