RE: G-107 Partial Relinquishment of Certificate of Authority

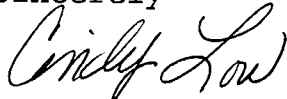

Dear Commission,

I am requesting permission to permanently release my authority to haul garbage in the following described area in my tariff.

Two (2) miles E of the start of R43E and T30N south 6 miles.
Or sections 31, 32, 30, 29, 19, 20, 18, 17, 7, 8, 6, 5.
See enclosed map.

The reason for relinquishing this area is due to the unsafe road conditions in the winter months. As the road is not a main arterial it is not cleared of ice and snow making it unsafe for our truck to travel it. Our driver has also refused to travel this area because of the danger to himself, the equipment and other vehicles traveling in this area.

Sincerely

Cindy Low
