Carole Washburn  
Executive Secretary  
1300 S. Evergreen Park Drive SW  
Olympia, WA 98504-7250

Via Facsimile and Federal Express

Dear Ms. Washburn,

AIRPEAK is a small wireless carrier that serves primarily business customers. We will soon be launching service in eastern Washington starting in the Spokane Area. We have been assigned CO Code (509-496) in Spokane that is hosted on a Qwest Tandem. To fully comply with Local Number Portability we require a second interconnection and LRN (Location Routing Number) within the LATA.

In order to get the LRN needed for the second switch NANPA requires us to apply for another CO code. We will not need the entire CO Code and will be donating 9000 of the numbers back to pooling. Additionally we are in the process of donating 8000 of the numbers on 509-496 back to pooling which should alleviate any concerns of AIRPEAK taking too many numbers from the system.

Unfortunately the Pooling Administration cannot authorize us the additional numbers due to our not meeting the months to exhaust criteria on our current CO code 509-496 which we have yet to place in service. They do however have a process to grant the request with the written permission of the WUTC.

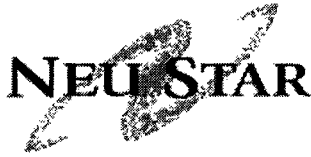

We respectfully request a State waiver of the Pooling Administrations Utilization and Months to Exhaust requirement so we can order the CO code and LRN necessary for our network launch. Any questions you may have can be directed to Tara Farquhar of the Pooling Administration at 925-363-7654.

Sincerely,

Steven Sixberry  
Network Engineer  
AIRPEAK Communications LLC
