On December 19th and 20th, 2005 I contacted Mr. Kermit Escribano, President, and Mr. David Escribano, Vice-President/Manager, concerning a carrier review "CR" of their terminal safety records and equipment based on a complaint from the Washington State Patrol that indicates All My Sons Moving & Storage may be using unqualified drivers that are driving with suspended driver's licenses.

On December 19th and 20th, 2005 I performed Level 5 terminal safety inspections on 5 of 10 trucks currently owned/operated by All My Sons Moving & Storage of Seattle, Inc. with the following results:

- 5 of 10 trucks currently owned/operated were inspected
3 of 5 trucks inspected were found with defects (60% Defect Ratio)
0 of 5 trucks inspected were placed out-of-service (0% Out-of-Service Ratio)

Specific defects can be seen by referencing my Uniform Driver/Vehicle Inspection Report forms #1224344, #1224345, #1224347, #1224349 and #1224350.

CVSA stickers were affixed to 3 of 5 trucks inspected upon completion of repairs.

5 of 14 driver's qualification files were examined with the following results:

- 2 of 5 driver's qualification files examined were found to be disqualified drivers due to suspended driver's licenses in violation of CFR 391.15(a).
5 of 5 driver's qualification files examined were found without employment applications in violation of CFR 391.21(a).
5 of 5 driver's qualification files examined were found without previous employment background investigations in violation of CFR391.51(b)(2).
5 of 5 driver's qualification files examined were found without inquiries into driver's driving record in violation of CFR 391.51(b)(2).
3 of 5 driver's qualification files examined were found without a note or certification of violations of motor vehicle laws and ordinances in violation

Part C

of CFR 391.51(b)(6).

3 of 5 driver's qualification files examined were found without an annual review of driving record in violation of CFR 391.51(b)(5).

5 of 15 driver's hours of service records were examined from November 1, 2005 thru November 30, 2005 with the following results:

3 of 150 days of hours of service records were found exceed 12 hours and log book record of duty service was not prepared in violation of CFR 395.8(a).

5 of 10 trucks repair, inspection and maintenance records were examined with the following results:

5 of 5 truck maintenance records were examined and found to be lacking daily records of inspection, repair and maintenance in violation of CFR 396.3(b)(3).

5 of 5 truck maintenance records were examined and found to be lacking any scheduled, preventative maintenance records and due dates of future inspections in violation of CFR 396.3(b)(2).

Driver Vehicle Inspection Reports, DVIR's, were examined from November 1, 2005 thru November 30, 2005 and all 46 DVIR's examined were completed on an inadequate form that did not have the minimum number of inspection items, no remarks section to indicate defects and/or vehicle found in good condition, no place for mechanic to sign repair of defects, and/or no place for next day driver to sign in violation of CFR 396.11(b).

All defects and record keeping violations were discussed with Mr. Kermit Escribano, President, and Mr. David Escribano, Vice-President/Manager.

This carrier review did result in a Satisfactory Safety Rating.

Subject WSP Referral

Leon,

I just received a compliance review field referral from Wayne Bray. Seems one of the drivers for All My Son's Moving & Storage of Seattle, Shawn M. Geisler, was operating a CMV with a suspended license. If there is one driver operating without a license there maybe more.

This may be a good time to do a complete CR. The company had a recheck CR in 02/03, just after the name change, and only the non-compliance areas were checked.

Because this is a safety related issue, I need you to check this out as soon as possible. Thanks.

SafeStat calculates a SafeStat Score to rank carriers in descending order by their safety status (i.e. a carrier with the highest SafeStat Score is first ranked carrier in terms of poor safety status). SafeStat does not assign SafeStat Scores to all carriers. To obtain a SafeStat Score, a carrier must be deficient in at least two different Safety Evaluation Areas (SEAs). A SEA with a value from 75 to 100 is defined as deficient. SEA Values that are less than 75 are not used in the calculation of a SafeStat Score.
