Re: Petition for Accounting Order regarding SFAS 143, Accounting for Asset Retirement Obligations, and FIN47, Accounting for Conditional Retirement Obligations

Dear Ms. Washburn,

Enclosed please find an original and twelve copies of Cascade Natural Gas Corporation's Petition and supporting work papers for an accounting order related to SFAS 143 and FIN47.

Questions regarding this Petition should be directed to Kathie Barnard at (206) 381-6824 or Doris Brettell at (206) 381-6745.

Sincerely,

 Jon Stoltz
 Senior Vice President, Regulatory & Gas Supply
 Cascade Natural Gas Corporation

BEFORE THE WASHINGTON UTILITIES & TRANSPORTATION
COMMISSION

Petition of

CASCADE NATURAL GAS CORPORATION

For an Order Regarding the Accounting
Treatment of Certain Asset Requirement
Obligations Resulting from Implementation of
SFAS 143

Docket No. UG-06_____

PETITION

- I* In accordance with WAC 480-07-370(b), Cascade Natural Gas Corporation (“Cascade” or “the Company”) respectfully petitions the Washington Utilities & Transportation Commission (the “Commission”) for an accounting order authorizing the Company to (1) record, as a regulatory asset or a regulatory liability, the cumulative financial statement impact resulting from the Company’s implementation of Statement of Financial Accounting Standards (SFAS) 143, as further clarified by FASB Interpretation no. (FIN) 47, Accounting for Conditional Retirement Obligations; and (2) record on an ongoing basis, as a regulatory asset or a regulatory liability, an amount equal to the difference between the annual SFAS 143 accretion and depreciation expenses and the annual depreciation expense based on Commission-approved depreciation rates. In support of this Petition, Cascade states:

BACKGROUND

- 2 Cascade is a natural gas distribution company serving approximately 235,000 residential, commercial, industrial and transportation customers in 95 communities in Washington and

Oregon. Cascade is a public service company, and is subject to the regulatory authority of the Commission as to its rates, service, facilities and practices.

- 3 This Petition is filed pursuant to RCW 80.04.090, which authorizes the Commission to prescribe the forms of account to be kept by public service companies; and WAC 480-07-370, which authorizes the Commission to prescribe the accounting to be used by public utilities subject to its jurisdiction.
- 4 Communications regarding this Petition should be addressed to:

Jon T. Stoltz
Senior Vice President, Regulatory & Gas Supply
Cascade Natural Gas Corporation
222 Fairview Avenue North
Seattle, WA 98109
Telephone: (206) 624-3900
Facsimile: (206) 654-4039
E-mail: jstoltz@cngc.com

- 5 Under the accounting method currently used by the Company for both financial reporting and ratemaking purposes, the cost of removing a tangible long-lived asset at retirement is included in the calculation of depreciation rates as negative salvage and is recovered over the useful life of the asset. Under this method, the accrued removal cost is included in Account 108, Accumulated Depreciation.
- 6 In June 2001, the Financial Accounting Standards Board (FASB) issued SFAS 143, *Accounting for Asset Retirement obligations*, effective for fiscal years after June 15, 2002. Under SFAS 143, entities are required to recognize and account for certain asset retirement obligations in a manner different from the way that Cascade and other public utilities have previously recognized and accounted for such costs. Specifically, if a legally

enforceable asset retirement obligation (ARO), as defined by SFAS 143, is deemed to exist, an entity must measure and record the liability for the ARO on its books. The liability must be recorded at fair market value in the period during which the liability is incurred. SFAS 143 defines “fair market value” as the amount that the entity would be required to pay in an active market to settle the ARO. SFAS 143 also provides that, if market prices are not available, estimates of fair value can be calculated by discounting the estimated cash flows associated with the ARO to their present value at the date the liability is to be recorded.

- 7 Under SFAS 143, at the time the liability is recorded, a corresponding ARO asset is also recorded on the entity’s books as part of the cost of the associated tangible asset. The ARO asset is then depreciated over the life of the associated tangible asset. In addition, accretion is added to the ARO liability annually to account for the time value of money, so that at the time of retirement, the recorded ARO liability will be sufficient to meet the legal obligation. Entities are also required to recognize the cumulative effect of the implementation of SFAS 143 on their financial statements.
- 8 SFAS 143 recognizes that differences may exist between its requirements and the treatment of ARO costs for regulatory purposes and provides that a regulated entity subject to SFAS 71, *Accounting for the Effects of Certain Types of Regulation*, can recognize any differences between the two approaches as a regulatory asset or a regulatory liability, subject to the requirements of SFAS 71.

In March 2005, the FASB issued FIN 47, *Accounting for Conditional Asset Retirement Obligations*, effective for fiscal years ending after December 15, 2005. FIN 47 clarifies that the term conditional asset retirement obligation as used in SFAS 143 refers to

a legal obligation to perform an asset retirement activity in which the timing and (or) method of settlement are conditional on a future event that may or may not be within the control of the entity, the obligation to perform the asset retirement activity, however, is unconditional.

- 9 In accordance with Generally Accepted Accounting Principles, Cascade is required to comply with SFAS 143 and FIN 47. Due to the lack of an active market for determining AROs, the Company will use the expected present value method to account for its ARO liabilities and offsetting assets.
- 10 After a thorough review, Cascade has determined that it will be required to record AROs under SFAS 143 and FIN 47 for certain assets. Under the proposed accounting treatment, the resulting transactions will have no impact for ratemaking purposes.
- 11 In addition to the cumulative ARO entries that will be recorded September 30, 2006, SFAS 143/FIN 47 accounting will require three annual entries. One entry will be required to record the annual increase in the ARO liability from the accretion of interest and another will be necessary to record the annual depreciation of the associated ARO asset on a straight-line basis over its remaining life.
- 12 The third entry will adjust the accumulated removal costs included in accumulated depreciation to the current amount. Since the Company will continue to use the Commission-approved depreciation rates to determine annual asset retirement costs for ratemaking purposes, these new accounting entries will not change the level of costs included in rates.
- 13 Nothing in the Petition is intended to request any approval regarding future ratemaking treatment. However, consistent with past rate proceedings, the Company will continue to

seek recovery of prudently incurred removal costs, not previously recovered through depreciation expenses, in future rate case proceedings.

REQUESTED ACCOUNTING TREATMENT

- 14 In order to comply with the requirements of SFAS 143/ FIN 47 and maintain revenue neutrality with respect to these costs as they relate to regulatory accounting, Cascade seeks Commission approval to record the effect of the annual SFAS 143/FIN47 accretion and depreciation expense as an adjustment to the regulatory asset and the net change in accumulated removal costs as an adjustment to the related regulatory liability. These costs will be recorded in FERC Account 230, Asset Retirement Obligations.

SUMMARY

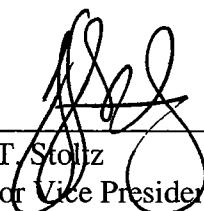

15 WHEREFORE, Cascade respectfully requests that the Commission enter an order approving the Company's request accounting treatment of as follows:

- 1) Authorizing Cascade to record, as a regulatory asset or a regulatory liability, the cumulative financial statement impact resulting from the Company's implementation of SFAS 143/FIN 47.
- 2) Authorizing Cascade to record, on an ongoing basis, as a regulatory asset or regulatory liability, an amount equal to the difference between the annual SFAS 143/FIN 47 accretion and depreciation expense and the annual depreciation expense based on Commission-approved depreciation rates.
- 3) Confirming that asset removal costs, in the form of negative net salvage, are currently accrued through annual depreciation expense, which is recoverable in rates; that these costs are based on estimates of the final removal cost; and that such costs are trued-up for ratemaking purposes at the time the related assets are retired and the actual removal costs are determined.
- 4) The accounting entries that result from the implementation of SFAS 143/FIN 47 will be recorded on the Company's books as of September 30, 2006. Cascade hereby requests that the Commission grant the requested accounting treatment by September 30, 2006, in order to facilitate the closing of the Company's 2006 financial statements in accordance with this request.

DATED this 24th day of August, 2006.

**CASCADE NATURAL GAS
CORPORATION**

Cascade Natural Gas Corporation

FAS143/FIN47 Asset Retirement Obligations

Work Papers

Kennewick

Cascade Natural Gas Corporation
Retirement of Kennewick
Summary

Background: CNGC estimates that the asset retirements associated with legal obligations will be settled between 5 and 10 years (i.e. between 2011 & 2016). It is also estimated that the actual retirement period will be over 3 years

Asset Retirement Cost - Discounted 1970 present value

Retirement in	5 years	8 years	10 years	Total
Year 1 cost	2,068.72	1,957.45	1,886.62	
Year 2 cost	2,030.95	1,921.71	1,852.17	
Year 3 cost	2,003.22	1,895.47	1,826.88	
	6,102.89	5,774.64	5,565.67	
Probability	34%	33%	33%	
	\$2,074.98	\$1,905.63	\$1,836.67	<u><u>\$5,817</u></u>

Asset Retirement Obligation - Discounted 2006 present value

Retirement in	5 years	8 years	10 years	Total
Year 1 cost	\$19,424.99	\$18,380.17	\$17,715.04	
Year 2 cost	\$19,070.28	\$18,044.54	\$17,391.55	
Year 3 cost	\$18,809.94	\$17,798.21	\$17,154.13	
	57,305.22	54,222.92	52,260.72	
Probability	34%	33%	33%	
	\$19,483.77	\$17,893.56	\$17,246.04	<u><u>\$54,623</u></u>

Accumulated Depreciation - from 1970 thru 2006

Retirement in	5 years	8 years	10 years	Total
Year 1 cost	\$1,822.45	\$1,609.46	\$1,485.21	
Year 2 cost	\$1,747.56	\$1,545.72	\$1,427.71

Cascade Natural Gas Corporation

FAS143/FIN47 Asset Retirement Obligations

Work Papers

Longview

Cascade Natural Gas Corporation
Retirement of Longview
Summary

Background: CNGC estimates that the asset retirements associated with legal obligations will be settled between 5 and 10 years (I.e. between 2011 & 2016). It is also estimated that the actual retirement period will be over 3 years

Asset Retirement Cost - Discounted 1970 present value

Retirement in	5 years	8 years	10 years	Total
Year 1 cost	\$5,050.41	\$4,778.76	\$4,605.83	
Year 2 cost	\$1,525.59	\$1,443.54	\$1,391.30	
Year 3 cost	\$1,385.41	\$1,310.89	\$1,263.45	
	\$7,961.41	\$7,533.18	\$7,260.58	
Probability	34%	33%	33%	
	\$2,706.88	\$2,485.95	\$2,395.99	\$7,589

Asset Retirement Obligation - Discounted 2006 present value

Retirement in	5 years	8 years	10 years	Total
Year 1 cost	\$47,422.51	\$44,871.78	\$43,247.98	
Year 2 cost	\$14,325.09	\$13,554.58	\$13,064.08

Cascade Natural Gas Corporation

FAS143/FIN47 Asset Retirement Obligations

Work Papers

Moses Lake

Cascade Natural Gas Corporation
Retirement of Moses Lake
Summary

Background: CNGC estimates that the asset retirements associated with legal obligations will be settled between 5 and 10 years (i.e. between 2011 & 2016). It is also estimated that the actual retirement period will be over 3 years

Asset Retirement Cost - Discounted 1970 present value

Retirement in	5 years	8 years	10 years	Total
Year 1 cost	\$1,282.03	\$1,213.07	\$1,169.17	
Year 2 cost	\$1,258.62	\$1,190.92	\$1,147.82
