Subject: **REQUEST FOR TWO (2) ONE THOUSAND NUMBER BLOCKS**

Dear Ms. Washburn:

Verizon Northwest Inc. (Verizon) requests the Washington Utilities and Transportation Commission to direct the Pooling Administrator (PA) to provide Verizon with two (2) one thousand number blocks to satisfy the requirement for additional numbers from Skagit Valley Hospital located in Mount Vernon, WA in the Mount Vernon Rate Center, NPA 360, LATA 674, OCN 4423.

The customer requests two (2) one thousand number blocks to support the ongoing expansion of the hospital campus which includes a Regional Cancer Care Center with 20,000 square feet and 29 employees, and hospital patient care expansion in a facility with 220,000 square feet. The hospital includes 142 patient rooms on 3 floors, 25 exam rooms designated for trauma emergency services, 6 operating rooms, 19 day surgery rooms, 12 recovery rooms, 1 treatment room, pharmacy services and various patient support areas. There will be approximately 550 employees to support the campus expansion with a total of 1,100 employees. This hospital serves Skagit County and portions of Island, North Snohomish and San Juan Counties.

Recently, the hospital was granted 3,000 new numbers in the 360-814-2000, 5,000 and 8,000 blocks. After further evaluation this customer determined the need for an additional two (2) 1,000 number blocks in the 360-814-6000 and 7000 blocks.

The Mount Vernon Rate Center does not have available the consecutive numbers the customer is requesting.

Ms. Carole J. Washburn

Page 2

This waiver request is made because Verizon's request for two (2) one thousand number blocks was denied by the PA because the serving central office does not meet the "months to exhaust" criteria. The PA requires the "months to exhaust" be less than or equal to six (6) months and the serving central office is currently at 84 months. Also, the percent utilization is currently at 68%, which is less than the 75% utilization required by the FCC.

The Washington Commission has the authority to review the PA's criteria and request a waiver when appropriate, in this case a waiver request for the utilization criteria. Verizon requests the commission instruct the PA to release the numbering resources necessary to meet the needs of this Verizon customer.

Verizon requests approval of this waiver request with an effective date of August 30, 2007. The Commission's waiver request must be submitted with the company's application to the PA for the numbering resources needed for deployment of service to this customer.

Please find attached a copy of the company's Block Application Form (Part 1) to the PA, Appendix B Months to Exhaust Certification Worksheet, the denial from the Neustar Pooling Administration System (PAS), and a copy of the letter from the customer requesting the number blocks.

If there are questions concerning this request, please contact Lin Fogg at (425) 261-6380.

Very truly yours,

David S. Valdez

Thousands-Block Application Form Part1A

Instructions for filling out each Section of the Part 1A form:

Section 1.1 Contact information requires that Service Providers supply under "Block Applicant" the company name, company headquarters address, a contact within the company, an address where the contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pooling Administrator section also requires the Service Provider to fill in the Pooling Administrator's name, address, phone, fax and e-mail.

Section 1.2 Service Providers who need a thousands-block assignment or for an Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a CO Code Application needs to also be submitted to the PA. The Service Provider should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the Telcordia™ LERG™ Routing Guide. The Operating Company Number (OCN) assigned to the service provider and the OCN its parent company. An OCN is a four-character alphanumeric assigned by Telcordia™ Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch Identification as well as the city or wire center name, rate center, rate center sub zone, homing tandem and CLLI™ tandem of the facilities based provider^{ix}. Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider completes the application should be entered in this section, as well as the Effective Date of the requested thousands-block.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS. They also indicate the primary type of business in which the numbering resource is to be used. Service Providers also may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first applications for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the FCC.

The thousands-block applicant certifies veracity of this form by signing their name, and providing their title and date.

Foot Notes:

-
- ⁱ Identify type of and reason for change(s) in Section 1.5.
 - ⁱⁱ The Pool Administrator is available to assist in completing these forms.
 - ⁱⁱⁱ A CO Code application will also need to be submitted to the PA
 - ^{iv} Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments should contact NECA (800 524-1020) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignments should direct questions regarding appropriate OCN usage to (TRA) (732-699-6700).
 - ^v This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the 11 character CLLI™ code of the switch /POI.
 - ^{vi} Rate Center name must be a tariffed Rate Center.
 - ^{vii} Acknowledgment and indication of disposition of this application will be provided to applicant within seven calendar days from the date of receipt of this application. An incomplete form may result in delays in processing this request.
 - ^{viii} Please ensure that the NPA-NXX of the LRN to be associated with this block(s) is/will be active in the PSTN prior to the effective date of the block(s).

Skagit Valley Hospital in Mount Vernon, Washington is building an expansion to the existing hospital. Skagit Valley Hospital is a 137-bed hospital with 1,100 employees and serves Skagit County and portions of Island, North Snohomish and San Juan Counties. The new hospital expansion will be dedicated primarily to patient care areas. As such, we will require the addition of several new telephone numbers. Skagit Valley Hospital made a request for a new prefix **and** 3000 new telephone numbers from our local carrier, Verizon, for a dialing plan that is straightforward for our patients and our community.

Recently we were granted 3000 new numbers from an existing prefix, and after further evaluation we will also need an additional 2 – 1000 block of those DIDs. We recently were granted the 360-814-2000, 5000, & 8000 blocks. We will also need the 360-814-6000 & 7000 blocks.

Thank you for your earliest consideration to this request. Please let us know as soon as possible when we can be granted these numbers.

Sincerely,

A handwritten signature in black ink, appearing to read "Gregg A. Davidson". The signature is fluid and cursive, with a large initial "G" and "D".
