Dear Sirs:

RE: G86

Enclosed you will find completed documents changing the operating entity of above referenced company from a sole proprietorship to a LLC to be effective on January 1, 2008. There will be no change in the day to day operations of the company, employees or operating equipment.

This change is being made, per legal advice, for estate planning purposes and to limit any future liability claims against the company. Our goal is to insure that this 32 year old company can survive any such claims and continue to provide customer service into the far distant future.

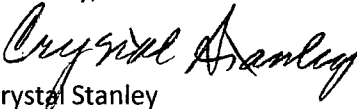

The appropriate form, per attached copy, has been filed with the Secretary of State to legalize this election. Our original G86 certificate is enclosed as well as the 2 tariff copies required.

Our insurance carrier has been notified and will furnish the proof of insurance immediately upon your acceptance of this change. There will be no change of Insurance Company, policy number or coverage except for changing the named insured to Stanley's Sanitary Service, L.L.C. dba Stanley's Sanitary Service.

The 2007 annual report will be filed by Fred W. & Crystal L. Stanley dba Stanley's Sanitary Service by the due date. The enclosed tariff copies include no changes, except for the name. The January 1, 2008, effective date would simplify annual report filing and eliminate the need for an additional report.

If further information is needed, please feel free to call our office.

Sincerely,

Crystal Stanley

Item 10 – Application of Rates – General

Rates named in this tariff cover the collection, transportation, and disposal of solid waste. When specifically referred to, rates also cover the collection and transportation of recyclable materials and/or yardwaste.

Title 81.77 of the Revised Code of Washington (RCW) and Chapter 480-70 of the Washington Administrative Code (WAC) govern operations of solid waste collection companies and the tariffs companies must file with the Washington Utilities and Transportation Commission (WUTC).

Unless exceptions are shown, all materials must be placed on the same level as the streets or alleys.

The company may charge additional amounts for disposal fees only when specifically stated in the tariff and separately shown on customer bills.

Item 15 – Holiday Pickup – Regularly Scheduled Service

When a pickup is missed due to the company's observance of a holiday, the company will provide service, at no additional cost to the customer, on an alternate day.

A list of the holidays the company observes is shown in Item 60.

For application of rates in this tariff, the company defines alternate day to mean the following:

Customers will be notified if an alternate service day is necessary due to holiday observance. This notice will be noted on the billing preceding the observed holiday.

Item 16 – Change in Pickup Schedule

When a company changes the pick-up date for its certificate area, or a portion of its certificate area, the company must notify all customers in the affected area of that change.

Notice must be made at least seven days before implementation of the new pickup schedule and may be made via mail, personal contact, or by a notice being affixed to the customer's solid waste receptacle.

Item 200 – Containers and/or Drop Boxes – General Rules

Availability. A company must maintain a supply of all sizes of containers and drop boxes for which rates are listed in this tariff. If a customer requests a container or drop box of a size listed in the company's tariff, and the company is unable to provide the requested size within 7 days of the customer request, the customer must be notified in writing or by telephone.

Alternate-sized containers and/or drop boxes. If the company cannot provide the requested-sized container or drop box (and that size is listed in the company's tariff), the company must provide alternate-sized containers or drop boxes, sufficient to meet the capacity originally requested by the customer, at the same rates as would have applied for the requested container or drop box.

Disposal fees due on alternate-sized drop boxes. If the company provides alternate-sized drop boxes, the customer is responsible for all lawfully applicable disposal fees resulting from the use of the alternate drop boxes.

Rates on partially-filled containers and/or drop boxes. Full pickup and rental rates apply regardless of the amount of waste material in the container or drop box at pickup time.

Rates for compacted materials. Rates for compacted material apply only when the material has been compacted before its pickup by the company.

Rates for loose material. Loose material dumped into the company's packer truck is subject to the rates for non-compacted material even though the material may be compacted later in the packer truck.

Permanent and temporary service. The following rules apply:

- (a) If a customer requests a container or drop box for less than 90 days, the customer will be billed at temporary service rates.
- (b) If a temporary service customer notifies the company that it has decided to retain the container or drop box for more than 90 days, permanent service rates will be assessed from the 91st day until the end of the period the customer retains the container or drop box.
- (c) If a customer requests a container or drop box for more than 90 days, the customer will be billed under permanent rates. If that customer cancels service before the end of the 90-day period, the company may not rebill the customer at temporary service rates. The intent of the customer at the time service was requested applies.
