Re: Extension of Number Code Activation Deadline

Dear Ms. Washburn:

By this letter, Eltopia Communications, LLC. is requesting an extension of the number code activation deadline of January 2nd, 2008 for the 509-315 code in the Spokane Rate Center. Eltopia applied for this new code on April 2nd, 2007 with full expectation of utilizing this code and LRN (location routing number) for our new SPOP (single point of presence) network with Qwest in LATA (local access and transport area) 676 by the activation date of January 2nd, 2008. Due to significant delays in the negotiations with Qwest on the SPOP arrangement, we were not able to meet the January 2nd, 2008 activation date. However, we have made great progress and have since had our SPOP arrangement approved on October 26th, 2007 by Qwest. Our SPOP interconnection facility orders and trunk orders are currently with Qwest provisioners, and we anticipate these orders will be formally tested and turned up on February 15th, 2008. With this SPOP network in place, Eltopia will assign new customers to the new 509-315 LRN and network immediately.

Currently NANPA has forecasted exhaust of the 509 NPA to be 1st Quarter 2013 with 154 NXXs available for assignment out of the 509 NPA. Currently the PA has 49 blocks available for assignment in the Spokane Rate Center. Eltopia will donate 9 blocks back from the 509-315 code, which will bring the total number of blocks available for assignment out of the Spokane Rate Center to 58.

Eltopia respectfully requests that the Commission approve the request for a 3 month extension of the number code activation deadline for 509-315 to April 2nd, 2008. We are

very close to bringing this network build full circle and your approval of this activation extension is critical.

Thank you for your attention to this matter. Should you have any questions or concerns about this request, please contact Shawna Kiesbuy at 208-664-1384 or shawna@caledwards.com on behalf of Eltopia Communications, LLC.
