October 30, 2008

Mr. Dave Danner
Secretary and Executive Director
Washington Utilities and Transportation Commission
1300 S. Evergreen Park Drive SW
Olympia, WA 98504

Dear Mr. Danner:

Cascade Natural Gas Corporation ("Cascade") encloses for filing the following tariff sheet containing an effective date of November 29, 2008:

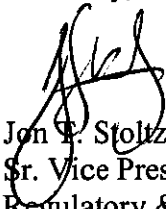

First Revision Sheet No. 302 Canceling Original Sheet 302

The purpose of this filing is to update the Company's commercial/industrial conservation related tariff to make the program available to core commercial/industrial customers served on rate schedules 570 and 577, who were inadvertently excluded from the tariff. When the company initially implemented the commercial/industrial conservation program in 2005, (which was accomplished through a deferred accounting order approved in Docket UG-051135), all core commercial and industrial rate schedules had been included, however when the program was added to the Company's tariff those schedules were omitted. Since these customers are subject to paying for the portion of the deferred costs associated with this program, it is appropriate for them to be eligible to participate.

Since these customers were originally intended to be included in the program, the Company requests that the tariff sheet be approved on Less than Statutory Notice to become effective on November 14, 2008.

Any questions regarding this filing can be directed to Katherine Barnard at 206-381-6824 or Allison Spector at 206-381-6834.

Sincerely,

Jon F. Stoltz
Sr. Vice President
Regulatory & Gas Supply
