Dear Tina,

We regretfully decided to cease our operation and dissolve our business, due to sluggish market demand (particularly swine flu for oversea travelers) and high operational cost, effective immediately. Please advise what action we need to take to surrender our license and close the business.

Thank you,

Sincerely yours,

Ben Yu

Hi Ben,

I am currently processing your application but it looks like the Form E that was submitted is for our electronic insurance filings database. Do you happen to have the phone number of the agent that produced your Form E? I need some clarification since they usually aren't completed and then mailed in.

Also, your Certificate of Liability reads the limits of liability are 1500/1500/1500. We had previously discussed this and it's not acceptable since we need the complete 1.5 million. It also listed the Department of Licensing as the Certificate Holder. The Utilities and Transportation Commission would need to be listed in order for us to accept it.

We can't set up an inspection until we have the proper insurance on file.

Sincerely,

Tina Leipski
