**REPORTS AS REFERENCED IN WAC 480-123-070
AND WAC 480-123-080**

Westgate Communication, LLC, dba WeavTel (the “Company”) hereby submits the following reports in accordance with WAC 480-123-070 and WAC 480-123-080.¹

Report 1: WAC 480-123-070(1)(a): Attached is a copy of the Company’s NECA-1 Reports for the calendar year 2008 and 2007, that, as of the date of the reports, the Company has reported as the basis for support from the federal high-cost fund.

Report 2: WAC 480-123-070(1)(b): The Company reports that the investments and expenses reported under Report 1, above, benefited customers as follows:

Through the expenditure of these funds, the Company was able to continue to provide services at a level that the Company believes meets the intent set forth in 47 U.S.C. §254 of providing high quality telecommunications services to customers in the service area for which the Company is designated as an ETC.² The Company has made investments over the past several years which allow it to provide quality telecommunications services to its customers in its designated ETC service area. Those expenditures and investments, including those reflected in Report 1, above; generally benefit all customers receiving the federal high-cost fund supported services from the Company within its designated ETC service area. The Company offers services that are comparable to services offered in urban areas at rates that are comparable to rates for such services in urban areas.

Report 3: WAC 480-123-070(4): The Company reports that during the calendar year 2008, the Company did not receive from either the Federal Communications Commission or the Consumer Protection Division of the Office of the Attorney General of the State of Washington any complaints against the Company made by the Company’s customers.

Report 4: WAC 480-123-080(1)(b): The Company reports as follows:

¹ It is the Company’s understanding that it is not required to submit the reports described in WAC 480-123-070(2) and (3).

² The term “ETC” is used in the same sense as the term is used in Chapter 480-123 WAC.

As they are known to the Company at the date of this Report, the planned investment and expenses related to Washington state for the period January 1, 2009, through December 31, 2009, that the Company expects to use as a basis to request federal high-cost support are expected to be relatively similar to those investments and expenses the Company has set forth in its information filed under calendar year 2008 Report 1, above, taking into account normal fluctuations in investment and expense levels. The Company expects that levels of expenses will remain relatively the same as those it experienced in calendar year 2008, subject to the effects of inflation and other commonly experienced changes in cost of labor and materials. The Company does not anticipate major adjustments in staffing levels for the relevant period. The Company expects that it will have a similar level of investment related to maintenance, replacement and minor upgrades of equipment and plant as occurred in calendar year 2008.

Report 5: WAC 480-123-080(2): The Company reports as follows:

As they are known to the Company at the date of this Report, the planned investment and expenses related to Washington state for the period January 1, 2010, through December 31, 2010, that the Company expects to use as a basis to request federal high-cost support are expected to be relatively similar to those investments and expenses the Company has set forth in its information filed under calendar year 2008 Report 1, above, taking into account normal fluctuations in investments and expense levels. The Company expects that levels of expenses will remain relatively the same as those experienced in calendar year 2008, subject to the effects of inflation and other commonly experienced changes in cost of labor and materials. The Company does not anticipate major adjustments in staffing levels for the relevant period. The Company's investment plans directly affecting federal high-cost supported services offered by it in its designated ETC service area do not include a major construction project at the present time. The Company expects that it will have a similar level of investment related to maintenance, replacement and minor upgrades of equipment and plant as occurred in calendar year 2008. The Company has not completed its budgeting process and does not have final numbers prepared for investment and expense levels for 2010. The Company expects that the continued receipt of federal high-cost support will allow the Company to continue to provide the supported service at rates that are comparable to the rates for such services in urban areas. All customers in the Company's designated ETC service area will benefit from the expected level of support by continuing to have available to them services that are comparable to the telecommunications services offered in urban areas at rates that are comparable to the rates for such services in urban areas.
