All insurance certificates shall specifically require forty-five (45) days' prior notice to the Owner of cancellation or any material change. Owner shall be named as an additional insured on all certificates of insurance.

5. All work by Developer shall be subject to passing inspection by Owner's Engineer. Developer shall pay for the cost of inspection within ten (10) days from the date of inspection.

6. Developer has previously submitted an application to construct the System Extension, and in that application made certain promises, representations and warranties. Said application is attached hereto as Exhibit "E," and by this reference incorporated herein. Developer specifically reaffirms said promises, representations and warranties contained in Exhibit "E."

7. Developer shall pay for any improvements to Owner's system required by the Owner's Comprehensive plan as determined by Owner's Engineer to serve the location set out in Paragraph 1, above, or required by a governmental agency for Owner to serve System Extension.

8. Developer shall install water services as contemplated by the System Extension. Services shall be installed up through the saddle and service line as shown on Exhibit "F" by the Date of Acceptance, as defined herein, and Developer shall provide to Owner the meter setters and meter boxes and U branches as required for double services for each service or double service, as appropriate.

9. Developer shall furnish all necessary conveyances in form to be approved by the Owner, including, but not limited to: (1) a duly executed easement for access to the area around said System Extension for purposes of maintaining and repairing, if necessary, the System Extension, a copy of which easement is attached hereto as Exhibit "G"; (2) a Bill of Sale in the form attached hereto as Exhibit "H"; (3) an assignment of any permit or water rights; and (4) any necessary deeds to real property conveyed.

10. From the Date of Acceptance of the System Extension, Owner shall, subject to approval by the Washington Utilities and Transportation Commission, maintain and operate the System Extension. Owner has no duty to accept the System Extension, or any portion thereof, if the System Extension does not pass inspection by Owner's Engineer or does not conform strictly to Owner's Conditions and Standards. As used in this Agreement, Date of Acceptance is the date that the last of the following events

occurs: (1) payment by Developer of all sums owed by Developer under this Agreement; (2) delivery of all documents required under paragraph 9; or (3) the System Extension passing inspection by Owner's Engineer.

11. Nothing in this Agreement entitles Developer or Developer's successors or assigns to connect to Owner's water system, including System Extension, except in accordance with the terms, conditions and charges in Owner's tariff filed with the Washington Utilities and Transportation Commission.

12. Owner does not warrant delivery of any specific quantity or quality of water, and Owner's Standards and Conditions are designed to produce only the minimum state standards in effect at the time of this Agreement. Such standards may not be sufficient for large lots, agricultural use or highly landscaped lots. Developer is relying on Developer's own knowledge to determine the adequacy of the System Extension to meet Developer's needs and those of Developer's assigns and successors in interest.

13. Developer shall pay ONE THOUSAND TWO HUNDRED TEN Dollars (\$1,210.00) per residential equivalent for which water service is proposed to be provided by the System Extension as a Developer Contingency Charge. In addition, Developer shall pay FIVE THOUSAND TWO HUNDRED SEVENTY Dollars (\$5,270.00) per residential equivalent for which water service is proposed to be provided by the System Extension as a Supplemental Developer's Fee. Payment of the sums under this paragraph shall be due and payable within five (5) days of the date this Agreement is approved by the Washington Utilities and Transportation Commission, which approval may occur by the passage of time (thirty days after filing).

14. Developer shall design all irrigation and landscaping for open space or areas not part of a lot on which a single family residence will be constructed that may be part of

the plat served by the System Extension to serve conservation goals. Design criteria shall be to use no more than eight hundred (800) gallons per irrigation ERU per day during peak season of May through September. The design criteria shall also be a usage criterion. The calculation of the eight hundred (800) gallon per ERU per day usage limitation shall be made on a monthly basis. Under this method of calculation, water that is not used in a month may not be saved or "banked" for use in a later month in the irrigation season. In addition, Developer agrees to adopt a "best practices" approach to the use of irrigation service. This best practices approach includes, but is not limited to, the following: (a) irrigation of grass areas at a rate of no more than one (1) inch per week; (b) sizing irrigation sprinklers and installing irrigation sprinklers to provide as near a uniform coverage of grass-landscaped areas as feasible; (c) not using watering practices that involve a "sponge" approach where water is applied in one area with the thought that it will eventually provide coverage of other areas through the water traveling over, through or under the ground; (d) not irrigating when the temperature is forecasted to exceed ninety (90) degrees Fahrenheit; and (e) installing rain sensors at each irrigation location so that irrigation does not occur during or shortly after rainfall. Developer warrants that it will use its best efforts to meet these conservation goals. Notwithstanding anything to the contrary contained herein, all irrigation use is subject to the terms of Owner's tariff, including, but not limited to Owner's ability to limit or stop irrigation for periods of time.

15. This Agreement may be terminated by Owner, at Owner's discretion, upon ten (10) calendar days' written notice to Developer, if Developer fails to pay any amounts due under this Agreement when due. **TIME IS OF THE ESSENCE IN THIS AGREEMENT.**

If this Agreement is terminated under this provision, Owner shall have no obligation to provide service to Developer or Developer's successors or assigns, and Developer shall forfeit any rights in the System Extension.
