To Whom It May Concern:

This letter is to provide you with written notice that I will be closing my moving business, Zida Labor, as of May 13th, 2010. The reason for closing the business is that I am leaving the country for an unknown amount of time and am unable to maintain the business while I'm gone. Upon returning to the US I will be going back to my former occupation of fishing in Alaska for some time.

In accordance with what I have been informed by UTC personnel, I will notify the department of licensing and the department of revenue of the closure of Zida Labor. I will also be removing the Zida Labor logo and advertising from all media including the following:

- Removing signs/lettering on the vehicles
- Taking down the website <http://ZidaLaborServices.com>
- Deleting profile from Umovers.com
- Removing all Craigslist advertising
- Destroying remaining business cards
- Changing business voicemail (the number will continue to be active as it's a personal cell phone number)

As discussed and agreed, I will not be able to remove advertising/contact info from the following websites as they have obtained Zida Labor information through other sources:

- Superpages.com
- Citysearch.com
- ApartmentCities.com
- YellowPages.aol.com
- Other websites that have collected Zida Labor information from other sources

Please contact me if you need any additional information.

Sincerely,

Boubacar Zida
Sole Proprietor
