Re: Tariff Increase 2010

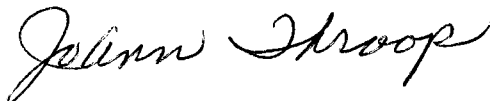

Dear Mr. Danner,

Basin Water Sources, Inc. is filing for a rate increase to keep pace with increasing costs of operations. Basin Water Sources, Inc. has not been profitable for the past five years. Although the most recent increase has helped, it has not corrected the operating shortfall.

Basin Water Sources, Inc. is proposing a 10% (\$10,525.00) increase for its flat rate. The current and proposed rates are detailed on the customer letter. At this time we are also proposing the following ancillary charges: Disconnection visit charge-\$25, Reconnection visit charge-\$25, Service visit charge-\$25, Account setup charge-\$25, Damage & repairs charge-time & material.

In addition to the flat rate schedule, I have enclosed a financial statement, balance sheet, a depreciation schedule, results of operation schedule, affiliated interest discloser and the public notice, which has been provided to each user. Please contact me at (509) 765-2282 if you have any questions or require additional information.

Sincerely,

JoAnn Throop
President
Basin Water Sources, Inc.
