The primary purpose of this filing is to implement changes to natural gas rates of less than three percent (3.0%). This filing revises the basic charges and gas delivery charges upward in order to reflect increased costs over the test year. The filing also proposes increases in minimum charges, procurement charges, procurement charge credits and demand charges. Overall, this filing represents an increase of \$24,384,451 or 2.3%. While this filing represents an increase in rates, the Company requests that the Commission treat it as a tariff filing as provided in RCW 80.28.060 and WAC 480-80-121 rather than a general rate case.

The tariff sheets described herein reflect issue dates of October 1, 2010, and effective dates of November 1, 2010. The Company anticipates that the Commission's examination of this filing may not be completed within the thirty-day statutory notice period and respectfully requests that the Commission take such actions as necessary to allow this filing to become effective no later than February 1, 2011.

To aid in the Commission's examination of this tariff filing the Company has prepared and is delivering to the Commission's Record Center for filing an original and twelve copies of testimony and exhibits discussing the factors that are impacting costs, pro forma and restating adjustments, revenue deficiency, cost of service and rate spread. Work papers detailing the revenue requirement and rate spread are included with the testimony and exhibits. Electronic versions of testimony and exhibits are also being hand delivered to the Commission's Record Center.

All rate schedules for natural gas service are affected by this increase as shown below:

Type of Service	Schedules	Percent Increase
Residential	16, 23, 53	2.5
Commercial & Industrial	31, 61	2.2
Large Volume	41, 41T	1.6
Interruptible	85, 85T	2.6
Limited interruptible	86, 86T	1.4
Non-exclusive interruptible	87, 87T	1.3
Rentals	71, 72, 74	2.9
Contracts		2.5
