Re: Original Sheet No. 56 - Rainier View Water Company, Inc.

Dear Mr. Danner:

This filing adds a new schedule establishing a Facilities Charge. The Company has assessed a facilities charge in the past in its Line Extension Agreements. The Commissioners had expressed a desire that the Company file a tariff change to incorporate the facilities charge into the Company's tariff. That is the purpose of this filing.

The tariff proposes a facilities charge based on the cost of source and storage company wide of \$1702 per equivalent residential unit (ERU). The tariff proposes a higher facilities charge for the Southwood/Sound water system. This is the Company's largest system and is the location where most growth is expected. The amount of the facilities charge for this system is \$8640 per ERU. The additional amount is premised on the estimated cost of building a main to connect directly with the Lakewood Water District, which is the source of water for the expected growth in customers in the Southwood/Sound system. The proposal comports with WAC 480-110-455(3) on facilities charges.

Because the Facilities Charge applies to entities that are developing new property not currently served by the Company and who will become connected to the Company's facilities in the future, it is not possible to know in advance who is affected by the filing. Therefore, advance notice has not been mailed to any entity. To the extent that WAC 480-120-425 might apply to this filing, a waiver is requested. The Company will notify applicants for service of the

charge when application for service is requested. In addition, the Company will notify a property developer of the charge when the property developer requests a water availability letter from the Company.

The undersigned has authority to submit filings on behalf of the Company and is authorized to sign tariff sheets on behalf of the Company.

Thank you for your attention to this matter.

Sincerely,
