

# SANITARY DISPOSAL, INC.

P.O. BOX 316 • HERMISTON, OREGON 97838 • (541) 567-8842

January 12, 2011

Carole J. Washburn, Secretary  
Washington Utilities and Transportation Commission  
PO Box 47250  
Olympia, Wa 98504-7250

Dear Secretary Washburn:

Our company, Sanitary Disposal, Inc. (G000173), operates as a solid waste company in Oregon and Washington, and as such, is required to file an annual report to your Commission on our Washington operations.

Once again, we are requesting to file a Class "C" report rather than the Class "A&B", which has been requested by the Commission. We filed and paid Class "C" reports on a timely basis for a number of years. In 2008, we requested and you granted us the option of filing a Class "C" report rather than the "A&B".

Filing this report causes a financial cost to our company that is disproportionate to the amount of income earned from our Washington operations. Our gross income derived from Washington sources is \$330,336.36, which represents approximately 6.5 % of our total income. Our company is locally owned and operated and does not include adequate accounting personnel to prepare the Commission report; therefore, we are forced to have our CPA firm prepare them for us, creating additional costs.

We appreciate your consideration in this matter, both past and present. We request that you review our request for filing a Class "C" report for 2010 and future years, in lieu of the Class "A&B", as requested by the commission. Should our circumstances change dramatically in the future, we will of course, inform you.

Respectfully,

Mike Jewett, President  
Sanitary Disposal, Inc.
