This filing establishes a simplified rate structure for Integrated Services Digital Network-Primary Rate Interface (ISDN-PRI). In order to simplify the billing of the service, certain rate elements were combined so that one rate will be charged for an ISDN-PRI Business Service Arrangement in lieu of various rate elements.

Page 2

The combined rate elements are named, "Integrated Services Digital Network-Primary Rate Interface (ISDN-PRI) Business Service", a similar naming convention of the existing ISDN-PRI service. Concurrent with introduction of this simplified offer, the currently available ISDN-PRI will be grandfathered. Current customers may choose to convert their existing ISDN-PRI arrangements to the simplified structure without incurring nonrecurring charges or early termination fees. There is no increase in rates to the existing customers versus those customers who choose to subscribe to the newer offer.

This filing also includes text changes to the existing PRI Bundle to reference the new ISDN-PRI Business Service naming convention and rate structure, with no change in the manner in which PRI Bundle is provided or billed.

I, Debra Levy, in compliance with WAC 480-80-103, certify that I have authority to issue tariff revisions on behalf of United Telephone Company of the Northwest d/b/a CenturyLink.

Commission consideration and timely approval of these pages are respectfully requested. Upon approval, please return one stamped approved copy of this filing for our records. Please feel free to contact me if you have any questions regarding this filing.

Sincerely,

Debra Levy
