I. GENERAL PROVISIONS

This Agreement sets forth the terms and conditions for the sharing of revenues between the parties regarding the provision of Feature Group A (FGA) Switched Access Service as follows:

- FGA originating and LATA-wide terminating traffic jointly provided within Extended Area Service (EAS) Calling Areas.
- FGA LATA-wide terminating traffic jointly provided in Non-EAS Calling Areas.

This Agreement is applicable when the Secondary Office Company has not been compensated under Interstate and Intrastate access tariffs or any contractual arrangements.

II. DEFINITIONS

For the purposes of this Agreement:

"LATA-wide termination of FGA Switched Access Service" refers to FGA Switched Access Service when used in the terminating direction to access the Secondary Office Company's prefixes in the LATA.

"LATA" (Local Access and Transport Area) denotes a geographic area established for the provision and administration of communications service. It encompasses one or more designated exchange(s) which are grouped to serve common social, economic and other purposes.

"Non-EAS" is defined as the joint provision of service between local exchange carriers outside the Extended Area Service (EAS) Calling Area.

"Primary Office Company" denotes the local exchange carrier with the Primary Office(s).

"Primary Office" is an office which: (1) directly connects to an interexchange carrier/reseller and (2) provides joint FGA Switched Access Service to that interexchange carrier/reseller with other end office(s).

"Secondary Office Company" denotes the local exchange carrier with the Secondary Office(s).

"Secondary Office" is an office providing FGA Switched Access Service to an interexchange carrier/reseller through the switch facilities of the Primary Office.

"Office" is a switching unit in a telephone system having the necessary equipment and operating arrangements for terminating and interconnecting customer lines and trunks or trunks only. There may be more than one central office in a building or exchange.

"Revenues" are all amounts chargeable to customers for FGA Switched Access Service under the tariff of the Primary Office Company less uncollectible revenues, as defined herein. The Primary Office Company accepts the responsibility for collecting the revenues billed by it.

"Uncollectible Revenues" are defined as revenues that the Primary Office Company is lawfully entitled to receive for FGA Switched Access Service rendered, but which have proven to be impracticable to collect.

"Access Minutes" are those minutes of use (MOUs) as described in the applicable Interstate and Intrastate Access Tariffs.

EXHIBIT A

BASIS OF REVENUE SHARING FOR LATA-WIDE TERMINATION OF FEATURE GROUP A SWITCHED ACCESS SERVICE IN NON-EAS CALLING AREAS

I. <u>EFFECTIVE DATE AND PURPOSE</u>

A. This Exhibit is effective April 1, 1989, and is attached to and made a part of the Revenue Sharing Agreement for Feature Group A Switched Access Service, effective April 1, 1989, between U S WEST Communications and Inter Island Telephone Company, Peninsula Telecommunications, Inc. and Telephone Utilities of Washington Inc., which are subsidiaries of Pacific Telecom, Inc.

B. From the effective date hereof, this Exhibit sets forth the basis of revenue sharing for LATA-wide termination of Feature Group A Switched Access Service in Non-EAS Calling Areas.

II. <u>MINUTES OF USE (MOUs)</u>

A. <u>ORIGINATING MOUs</u>

Originating Non-EAS calls to the FGA Switched Access Service are rated and billed as toll calls and, therefore, usage associated with these calls is not included in this revenue sharing Agreement.

B. <u>TERMINATING MOUs</u>

1. Actual non-premium LATA-wide billed terminating Interstate and Intrastate FGA Switched Access MOUs for each non-equal access office in the associated Non-EAS Calling Area will be measured by the Primary Office Company.

2. Actual premium LATA-wide billed terminating Interstate and Intrastate FGA Switched Access MOUs for each equal access office in the associated Non-EAS Calling Area will be measured by the Primary Office Company.

III. REVENUE SHARING CALCULATION

A. NON-PREMIUM

The revenue sharing amount for non-premium FGA terminating MOUs applicable to each non-equal access office in the associated LATA-wide terminating Non-EAS Calling Area for each data month shall be equal to the Secondary Office Company's Interstate and Intrastate non-premium tariff rates per MOU in effect as of January 1st of each calendar year for FGA Switched Access Service times the corresponding number of Interstate and Intrastate MOUs determined in paragraph II. above. The above tariff rates may be changed once per jurisdiction during each calendar year period upon mutual agreement of the parties to this Agreement. That rate change may be due to a tariff revision or a percent of ownership revision affecting the Local Transport Facility rate element.

B. PREMIUM

The revenue sharing amount for premium FGA terminating MOUs applicable to each equal access office in the associated LATA-wide terminating Non-EAS Calling Area for each data month shall be equal to the Secondary Office Company's Interstate and Intrastate premium tariff rates per MOU in effect as of January 1st of each calendar year for FGA Switched Access Service times the corresponding number of Interstate and Intrastate MOUs determined in paragraph II. above. The above tariff rates may be changed once per jurisdiction during each calendar year period upon mutual agreement of the parties to this Agreement. That rate change may be due to a tariff revision or a percent of ownership revision affecting the Local Transport Facility rate element.

IV. RATE CHANGES

Rate changes will be implemented on a going forward basis from the date they are received by the Primary Office Company.

V. HIGH COST FUND POOL

For the period April 1, 1989, through October 31, 1989, the Primary Office Company will report High Cost Fund FGA MOUs and associated revenues to the appropriate State Pool Administrator. Therefore, no FGA revenue sharing will be implemented for that period. The High Cost Fund is a special revenue pooling arrangement established by State Commission Order and handled by an industry-approved State Pool Administrator.

Effective November 1, 1989:

A. The Primary Office Company will:

1. discontinue reporting the above MOUs and associated revenues to the appropriate State Pool Administrator, and

2. implement FGA revenue sharing for the High Cost Fund rate element.

B. The Secondary Office Company will report the above MOUs and associated revenues to the appropriate State Pool Administrator.

VI. TERM OF THIS EXHIBIT

This Exhibit shall become effective on the date specified above and will continue in force and effect thereafter unless terminated upon thirty (30) calendar days' written notice from either party to the designated representative of the other party.

EXHIBIT B

BASIS OF REVENUE SHARING FOR ORIGINATING AND TERMINATING FEATURE GROUP A SWITCHED ACCESS SERVICE IN EAS CALLING AREAS

I. EFFECTIVE DATE AND PURPOSE

A. This Exhibit is effective April 1, 1989, and is attached to and made a part of the Revenue Sharing Agreement for Feature Group A Switched Access Service, effective April 1, 1989, between U S WEST Communications and Inter Island Telephone Company, Peninsula Telecommunications, Inc. and Telephone Utilities of Washington Inc., which are subsidiaries of Pacific Telecom, Inc.

B. From the effective date hereof, this Exhibit sets forth the basis of revenue sharing for origination and LATA-wide termination of Feature Group A Switched Access Service in EAS Calling Areas.

II. MINUTES OF USE (MOUs)

A. ORIGINATING MOUs

1. Actual non-premium billed originating Interstate and Intrastate FGA Switched Access MOUs for each non-equal access office in the associated EAS Calling Area will be measured by the Primary Office Company.

2. Actual premium billed originating Interstate and Intrasate FGA Switched Access MOUs for each equal access office in the associated EAS Calling Area will be mesured by the Primary Office Company.

3. The Secondary Office Company that has agreed to supply actual originating MOUs which are measured by its own Office will provide that usage to the Primary Office Company by the fifteenth (15th) calendar day following the end of the data month. Those MOUs will not be subject to the allocation percents described in Exhibit B, paragrahs VI, herein. The Primary Office Company will use those MOUs in calculating the FGA originating revenue sharing amounts instead of the actual originating MOUs measured by the Primary Office Company's Office.

   Should the Secondary Office Company fail to furnish originating MOUs in accordance with the above procedures, the Primary Office Company will determine originating MOUs for the Secondary Offices and will apply the allocation percents described in Exhibit B, paragraph VI, herein.

II. MINUTES OF USE (MOUs) (Continued)

B. TERMINATING MOUs

1. Actual non-premium LATA-wide billed terminating Interstate and Intrastate FGA Switched Access MOUs for each non-equal access office in the associated Non-EAS Calling Area will be measured by the Primary Office Company.

2. Actual premium LATA-wide billed terminating Interstate and Intrastate FGA Switched Access MOUs for each equal access office in the associated Non-EAS Calling Area will be measured by the Primary Office Company.

III. REVENUE SHARING CALCULATION

A. NON-PREMIUM

1. The revenue sharing amount for non-premium FGA originating MOUs applicable to each non-equal access office in the associated EAS Calling Area for each data month shall be equal to the Secondary Office Company's Interstate and Intrastate non-premium tariff rates per MOU in effect as of January 1st of each calendar year for FGA Switched Access Service times the corresponding number of Interstate and Intrastate MOUs determined in paragraph II. above. The above tariff rates may be changed once per jurisdiction during each calendar year period upon mutual agreement of the parties to this Agreement. That rate change may be due to a tariff revision or a percent of ownership revision affecting the Local Transport Facility rate element.

2. The revenue sharing amount for non-premium FGA terminating MOUs applicable to each non-equal access office in the associated LATA-wide terminating EAS Calling Area for each data month shall be equal to the Secondary Office Company's Interstate and Intrastate non-premium tariff rates per MOU in effect as of January 1st of each calendar year for FGA Switched Access Service times the corresponding number of Interstate and Intrastate MOUs determined in paragraph II. above. The above tariff rates may be changed once per jurisdiction during each calendar year period upon mutual agreement of the parties to this Agreement. That rate change may be due to a tariff revision or a percent of ownership revision affecting the Local Transport Facility rate element.

III. REVENUE SHARING CALCULATION (Continued)

B. PREMIUM

1. The revenue sharing amount for premium FGA originating MOUs applicable to each equal access office in the associated EAS Calling Area for each data month shall be equal to the Secondary Office Company's Interstate and Intrastate premium tariff rates per MOU in effect as of January 1st of each calendar year for FGA Switched Access Service times the corresponding number of Interstate and Intrastate MOUs determined in paragraph II. above. The above tariff rates may be changed once per jurisdiction during each calendar year period upon mutual agreement of the parties to this Agreement. That rate change may be due to a tariff revision or a percent of ownership revision affecting the Local Transport Facility rate element.

2. The revenue sharing amount for premium FGA terminating MOUs applicable to each equal access office in the associated LATA-wide terminating EAS Calling Area for each data month shall be equal to the Secondary Office Company's Interstate and Intrastate premium tariff rates per MOU in effect as of January 1st of each calendar year for FGA Switched Access Service times the corresponding number of Interstate and Interstate MOUs determined in paragraph II. above. The above tariff rates may be changed once per jurisdiction during each calendar year period upon mutual agreement of the parties to this Agreement. That rate change may be due to a tariff revision or a percent of ownership revision affecting the Local Transport Facility rate element.

IV. RATE CHANGES

Rate changes will be implemented on a going forward basis from the date they are received by the Primary Office Company.

V. HIGH COST FUND POOL

For the period April 1, 1989, through October 31, 1989, the Primary Office Company will report High Cost Fund FGA MOUs and associated revenues to the appropriate State Pool Administrator. Therefore, no FGA revenue sharing will be implemented for that period. The High Cost Fund is a special revenue pooling arrangement established by State Commission Order and handled by an industry-approved State Pool Administrator.

Effective November 1, 1989:

NOTE 1: To determine the Local Transport Facility rate for originating FGA MOUs, each company must identify their EAS exchanges; weight each EAS exchange using airline miles for the EAS route, percent of ownership of said route, and access line counts, to aggregate them into a single averaged route. Then, multiply the applicable tariff rate/minute/mile by the averaged route to determine the rate per MOU.

NOTE 2: To determine the Local Transport Facility rate for terminating FGA MOUs, each company must identify all of their Feature Group C Meet Point routes (as a surrogate for the FGA routes); weight each Meet Point route using airline miles for the each route, percent of ownership of said route, and access line counts, to aggregate them into a single averaged route. Then, multiply the applicable tariff rate/minute/mile by the averaged Meet Point route to determine the rate per MOU.
