Advice Letter No. 12

Mr. David Danner, Executive Director and Secretary
Washington Utilities and Transportation Commission
1300 South Evergreen Park Drive SW
Olympia, WA 98504-7250

Dear Mr. Danner:

Please file the enclosed Pend Oreille Telephone Company's Local Tariff WN.U- 1, Revised Tariff Sheets No.42 and No. 44, with the Commission to be effective December 18, 2011.

This filing reflects the following:

WN. U-1

3rd Revised Sheet No.42

2nd Revised Sheet No.44

Cancels WN.U-1

2nd Revised Sheet No.42

1st Revised Sheet No.44

In this filing, Pend Oreille Telephone (POTC) is proposing to offer package quantity discounts on its Advanced Custom Calling Features (ACCF) as they currently provide on their Custom Calling Features (CCF). Along with the requested quantity discounts applied to ACCF features, the Company proposes that the quantity discount treatment will apply interchangeably between CCF and ACCF feature classes. This will allow a customer to purchase any CCF and ACCF and be credited with a quantity discount based on how many features they subscribe to in either type of feature class.

The Company believes the addition of these discounts may help in making these calling features more affordable to their customers. The proposed feature packages and discounts are forecasted to have minimal impact on the company's gross annual revenues. The filing is not increasing any rate or charge, causing the withdrawal of service, or conflicting with other schedules. Enclosed are an original and three copies of this filing.

If you have any questions or require additional information on this filing, please contact me at (719) 594-5820 or aschein@gvnw.com.

Sincerely,

Andy Schein
