Ref: Penalty Assessment: UT-130821

Dear Ms. McCloy,

Due to an administrative oversight, we find ourselves under a penalty notice of \$1800 for failure to provide our annual report. We deeply regret this situation reaching such a desperate stage. Is there anything that can be done regarding the amount so we can resolve this?

The company is in dissolution and we assumed a zero revenue report was filed with a request to remove us from Washington state, as we have no customers and are not doing any business there.

I have had recent contact with someone in your office and they were very helpful and understanding. We did try to call you last week and early this week, but you were not available. A message was left on Catrina Murphy's voicemail.

We have enclosed the missing report and trust we can come to an agreement on closing this matter as soon as possible.

Thanking you,

Regards

Sean P. Connors (President)
