Description of the Pro Forma Intra-Company Changes

EarthLink has determined that its business would be more efficient from a management, operations, regulatory, accounting, financial and customer perspective by further realigning and reducing its subsidiaries and establishing a holding company with no operations as the publicly traded parent company for the Company. The *pro forma* intracompany changes described below that are the subject of this Notification are part of these streamlining efforts.

The Parties hereby notify the Commission of the various intra-company changes that will result in (1) BTI and DeltaCom becoming direct subsidiaries of EarthLink Business;⁸ (2) establishing EarthLink Holdings, Inc. ("EarthLink Holdings") as the new publicly traded holding company between EarthLink and its current shareholders and converting EarthLink to a Delaware limited liability company;⁹ and (3) subsequent to completing

⁸ These intra-company changes will result from (1) BTI Telecom Corporation merging with and into EarthLink Business, whereupon the separate existence of BTI Telecom Corporation will cease and EarthLink Business will be the surviving entity and direct parent company of BTI and (2) ITC^DeltaCom, Inc. merging with and into EarthLink Business, whereupon the separate existence of ITC^DeltaCom, Inc. will cease and EarthLink Business will be the surviving entity and direct parent company of DeltaCom.

⁹ This intra-company change will likely occur in three steps: (1) EarthLink will form a wholly owned subsidiary, EarthLink Holdings, which will be a Delaware corporation; (2) EarthLink Holdings will form a wholly owned subsidiary, "MergerCo", which will be a Delaware limited liability company; and (3) MergerCo will merge with and into EarthLink, with EarthLink as the surviving corporation and a wholly owned subsidiary of EarthLink Holdings. In addition, EarthLink, which does not itself have any regulated telecommunications operations, will convert from a Delaware corporation to a Delaware limited liability company. At the time of the *pro forma* transaction, the existing publicly traded shares of EarthLink will be converted into shares of EarthLink Holdings stock on a

steps (1) and (2) above, EarthLink possibly contributing its membership interests in EarthLink Business Holdings, LLC to EarthLink Holdings which would remove the EarthLink entity as an intermediate holding company in the chain of ownership between the WA Certificated Entities and their ultimate parent EarthLink Holdings.¹⁰ Corporate organization charts depicting the organizational structure of EarthLink and its subsidiaries before and after these *pro forma* intra-company changes are appended hereto as Exhibits A and B hereto. For the Commission's reference, Exhibit C depicts the corporate organization of the WA Certificated Entities and their direct and indirect parent companies before and after the *pro forma* transactions described above. The intracompany changes described herein will not result in any change in the WA Certificated Entities' management or day-to-day operations or adversely affect the WA Certificated Entities' current or proposed operations.

Public Interest Considerations

The Parties submit that the *pro forma* intra-company changes described herein are in the public interest. The *pro forma* changes will further simplify and realign EarthLink's existing corporate structure thereby reducing its reporting and accounting burdens and providing other efficiencies, enabling EarthLink and its subsidiaries to become stronger competitors to the ultimate benefit of consumers. The *pro forma* changes may also provide the Company with greater flexibility for future equity, debt and other transactions. The *pro forma* changes will be transparent to customers and will not result in any change in their services, and the rates, terms and conditions of their services will not change as a result of the purely intra-company changes.

one-for-one basis. The existing shareholders of EarthLink will thereby become the shareholders of EarthLink Holdings in the same amounts and percentages as they held in EarthLink prior to the intra-company mergers.

¹⁰ This *pro forma* intermediate holding company change may occur in 2014 following completion of certain corporate documentation and other prerequisites.
