RE: Request for a “temporary interruption of service from Field's Point Landing on 11/13/13 & 11/15/13”

To Whom It May Concern:

We are submitting this as our request for a “temporary interruption of service” for our scheduled passenger service on Lake Chelan from/to the port of Field's Point Landing on 11/13 & 11/15, Tariff 63, Certificate B-34.

Reason: Per the attached letter from the U.S. Forest Service. Repairs are required to maintain the dock at Field's Point in a safe condition. Due to the needed repairs, the dock will not be accessible for the run dates of 11/13 and 11/15. All other ports will be served and those who would normally board at Field's Point will be able to board in Chelan. The ticket price is the same from both ports.

Timing: Per the attached letter, the expected dates that we will not be able to land at the dock are 11/13 and 11/15.

Attached is a copy of an email we have posted on our website, in our office, on the Lady Express and sent to all customers that we have e-mail addresses for. We feel confident that most of those who would be negatively affected by this will be aware of the change. The historic ridership from this port on these days has been between 8 and 20 each way, mostly residents of Stehekin.

If there is any further information that is needed, please let us know.

Sincerely,
Jack Raines
