Dear Sir:

Gold Beach Water Company wishes to revise our current tariff with the Commission. We are requesting this tariff filing to help cover inflation and increased operational costs. In 2013 we have had a net loss of \$ 2,307. on our Income Taxes. Our customers are conserving water, therefore, we are pumping less water and that creates a large loss in Revenue. Our Emergency fund is low and we need funds to hire an engineer to design and figure costs for replacing 2 Water Storage Tanks soon. As a small company, we are requesting that our Rates Design stay the same with 500 cubic feet of water included in the Basic Rate and only adding \$6.00 a month or \$72.00 per year @ 196 customers = \$14,112.00 per year for only a 17.4% increase to the Base Rate at this time. Our last rate revision was on July 1, 2006 - 8 years ago.
