 OF THE SUPREME COURT

Dear Commissioners:

We are requesting that you consider our request for amending Certificate No. G-169, in particular certain language that excludes the City of Republic.

In looking on the website could not find any forms for amending tariffs or certificates so hopefully the attached statement will suffice.

If there are any fees or other documentation or forms that need to be completed, please advise.

Thank you for your consideration of this matter.

Sincerely,

Clifford W. Couse / jcs

Support Statement for Amending Certificate G-169

During 2002 the City of Republic was excluded from our operating authority. The City of Republic was in our certificate area since 1983. We did not request this and can find no documentation that it was ever requested or docketed. We would like the language "Excluding the city of Republic" removed from our Certificate and that it be re-instated in our operating authority, so that should the city ever discontinue mandatory service we will be the certificated hauler for the area.

When the certificate was received with the language in it, we assumed it meant that we could no longer operate within the City of Republic and did not know until discussing with staff what would happen if the City of Republic elected to stop mandatory service that it meant that it was taken out of our operating authority completely. We have provided drop box service under our tariff charges in the City of Republic, because the City didn't wish to provide this service.

There is no lack of service to the City of Republic.

This matter has been researched and there is no documentation that we requested the language. Therefore we are asking that it be deleted from our certificate and a new or amended certificate be issued.
