SECTION 4 - RATES AND TARIFFS

Is this application to operate under a contract? No Yes If yes, submit a copy of each contact under which service will be performed. The contract must contain all the elements states in WAC 480-70-146.

If this application is for temporary authority, a new certificate, or extension of existing certificated authority, you must attach a copy of your proposed tariff using either the standard tariff format included in this package, or an approved alternate format. All tariffs must comply with the provisions of WAC 480-70-226 through WAC 480-70-351.

Please attach a map that meet the requirements of WAC 480-70-056 and clearly shows the territory described above.

State below the conditions that justify granting of this application. If you are applying for temporary certificate authority, be sure your statement addresses and support the question of “immediate and urgent need”: Bobby Wolford Trucking and Demolition, Inc. is one of very few trucking companies in Snohomish and King Counties with specialized “End Dump” and “Side Dump” trailers*. None of the current solid waste haulers in these counties have these type of haulers. End Dumps and Side Dumps are of vital importance for solid waste transportation. These trailers can perform jobs that no regular solid waste hauler can because they can safely haul extremely large quantities of material and/or extremely large pieces of material. A good example of how important these trailers are for efficient solid waste hauling is the recent Mukilteo Pier removal project. In that case, end dump trailers served a critical function; because of their huge carrying capacity and high side walls, the pilings were able to be safely hauled. No regular hauler or container could have done this job so safely and efficiently. End dump and side dump trailers serve a truly unique and important public interest. There is no other carrier in the area that can provide this service. In light of these important factors, Wolford Trucking should be granted a solid waste hauling certificate, limited to the use of end dump and side dump trailer usage, to fill this important public and private service.

- *Wolford Trucking has 3, 50 yard end dump trailers; 2, 100 yard end dump trailers; and, 4, 30 ton side dump trailers.*

Please tell us about your experience and knowledge of transportation or solid waste, including knowledge of motor carrier driver and equipment safety requirements: Bobby Wolford Trucking and Demolition has over 40 years of experience hauling construction and demolition materials. All of its drivers hold CDL’s and undergo frequent and thorough safety training instruction and skill development. In addition, Wolford Trucking acquired 4 (four) brand new trucks in 2015 that are used to pull our end and side dump trailers. Our equipment safety requirement standards (FMCSA and DOT) are a constant, critical focus of our business. We strive to meet or exceed all safety standards set for our industry.

Wolford Trucking has a “Satisfactory” safety rating with the FMCSA.

Have you been cited for violation of state laws or Commission rules? No Yes

If yes, please explain: In February 2015, Bobby Wolford entered into a settlement agreement with the Commission to resolve complaints that Wolford was hauling demolition debris from the Everett Boeing Plant to the Snohomish County Airport Road Transfer Station. In that instance, just as is the case with the Mukilteo Pier Removal Project, Wolford Trucking was the only trucking company that had end dump trailers to do the job.
