SERVICE CONNECTION CHARGES

A. GENERAL

- 1.
2. Non-recurring service charges are in addition to rates and any other charges normally applying under the tariffs, except where such application is specifically excluded. They apply in addition to installation, termination or construction charges specifically stated in connection with the various services described in the Company's tariffs. The non-recurring charges in this tariff section also apply for service connection of miscellaneous services and equipment that have no other non-recurring charge.
3. Payment of Service Charges

Payment of service charges for the initial establishment of service may be required prior to the establishment of service.
4. The charges specified herein do not contemplate work begun being interrupted by the customer. If the customer interrupts work once begun, a charge in addition to the specified charges will be made equal to the additional cost involved.
