

WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

**NOTICE OF PENALTIES INCURRED AND DUE
FOR VIOLATIONS OF LAWS AND RULES**

**PENALTY ASSESSMENT: DG-160174
PENALTY AMOUNT: \$2,000**

Woodland Industries General Contracting Inc.
10715 66th Ave E.
Puyallup, WA 98373

The Washington Utilities and Transportation Commission (Commission) believes that you have violated Revised Code of Washington (RCW) 19.122.030(1)(a) by failing to request a dig ticket prior to performing an excavation. RCW 19.122.055(1)(a) states, in part, that any excavator who fails to notify a one-number locator service and causes damage to a hazardous liquid or gas facility is subject to a civil penalty of not more than ten thousand dollars for each violation.

Commission staff (Staff) conducted an investigation in which it reviewed damage reports submitted by Puget Sound Energy (PSE) and identified two natural gas damage events involving Woodland Industries General Contracting Inc. (Woodland), where buried utilities were not located prior to excavation. Accordingly, the Commission hereby notifies you that it is assessing a penalty against you in the amount of \$2,000 on the following grounds:

(First Violation)

On May 9, 2014, an employee from Woodland was clearing stumps to find sanitation when PSE's 5/8" polyethylene service line was hit and severed at 8207 Orchard St. SW, Lakewood, Washington. Prior to beginning excavation, Woodland failed to request a dig ticket from a one-number locator service to have the underground utilities located.

On July 1, 2014, PSE submitted a Damage Incident Reporting Tool (DIRT) report identifying Woodland as the party responsible for damaging the utility's natural gas service line at 8207 Orchard St. SW, Lakewood, Washington on May 9, 2014, without first obtaining a ticket number to have utilities located prior to excavation.

On July 22, 2014, the Commission mailed an Alleged Violation of Washington Dig Law letter to Woodland, informing the company of its obligation to have underground utilities located prior to excavation, as outlined in RCW 19.122.030. The letter emphasized the importance of becoming familiar with the law, and the possibility of penalties for each violation of the law.

(Second Violation)

On September 21, 2015, a Woodland excavator operator hit an idle riser knocking off the meter set assembly and shearing the threads at 2800 E "R" St., Tacoma, Washington. Prior to beginning excavation, Woodland failed to request a dig ticket from a one-number locator service to have the underground utilities located.

On November 9, 2015, PSE submitted a DIRT report identifying Woodland as the party responsible for damaging PSE's natural gas service equipment at 2800 E "R" St., Tacoma, Washington on September 21, 2015, without first obtaining a ticket number to have utilities located prior to excavation.

On November 23, 2015, the Commission mailed an Alleged Violation of Washington Dig Law letter to Woodland, informing the company of its obligation to have underground utilities located prior to excavation, as outlined in RCW 19.122.030. The letter emphasized the importance of becoming familiar with the law, and the possibility of penalties for each violation of the law.

Based on the results of Staff's investigation, the Commission finds that Woodland Industries General Contracting Inc. violated RCW 19.122.030(1)(a) two times, by failing to request a dig ticket prior to performing an excavation. Because these are the company's first violations, the Commission assesses a \$1,000 penalty for each violation. These facts, if not contested or if proved at a hearing and not rebutted or explained, are sufficient to support the penalty assessment.

Your penalty is due and payable now. If you believe one or both violations did not occur, you may deny committing the violation and contest the penalty assessment through evidence presented at a hearing or in writing. The Commission will grant a request for hearing only if material issues of law or fact concerning a violation require consideration of evidence and resolution in a hearing. Any contest of the penalty assessment must include a written statement of the reasons supporting that contest. Failure to provide such a statement will result in denial of the contest.

If you admit one or both violations but believe there is a reason for the admitted violation that should excuse you from the penalty, you may ask for mitigation (reduction) of this penalty through evidence presented at a hearing or in writing. The Commission will grant a request for hearing only if material issues of law or fact require consideration of evidence and resolution in a hearing. Any request for mitigation must include a written statement of the reasons supporting that request. Failure to provide such a statement will result in denial of the request.

If you properly present your request for a hearing and the Commission grants that request, the Commission will review the evidence supporting your dispute of the violation or application for mitigation in a Brief Adjudicative Proceeding before an administrative law judge. The administrative law judge will consider the evidence and will notify you of his or her decision.

You must act within 15 days after receiving this notice to do one of the following:

- Pay the amount due;

- Contest the occurrence of the violation; or
- Request mitigation to reduce the amount of the penalty.

Please indicate your selection on the enclosed form and send it to the Washington Utilities and Transportation Commission, Post Office Box 47250, Olympia, Washington 98504-7250, **within FIFTEEN (15) days** after you receive this notice.

If you do not act within 15 days, the Commission may refer this matter to the Office of the Attorney General for collection. The Commission may then sue you to collect the penalty.

DATED at Olympia, Washington, and effective April 18, 2015.
