Re: Compliance Filing - WAC 480-107-055 - Schedule of Estimated Avoided Cost

Dear Mr. King:

Pursuant to WAC 480-107-055, please find Puget Sound Energy's ("PSE") Schedule of Estimated Avoided Cost. An electronic copy of the same is being submitted through the Commission's Records Center web portal.

The Schedule of Estimated Avoided Cost does not provide a guaranteed contract price for electricity. As indicated in WAC 480-107-055(4), this schedule provides only general information to potential bidders about the costs of new power supplies.

As provided for in WAC 480-107-055(2), this Schedule is based upon estimates of currently projected market prices for power to be used in PSE's 2015 Integrated Resource Plan process except that the long-term forecast for natural gas prices has been updated. When developing these estimates of projected market prices for power, PSE also considered the most recent project proposals received from the last request for proposals, and the results of the most recent bidding process.

If you have any questions about the information contained in this filing, please contact Julie Waltari at (425) 456-2945 or julie.waltari@pse.com. Any other questions about this filing may be directed to me at (425) 456-2110.

Sincerely,

Manager, Regulatory Initiatives & Tariffs
