Brian Dent, Operations Manager 253-333-0218

We are requesting a clearance rule exemption from 480-60-0050 1,3.

We have a 12" platform that extends halfway through the facility (approx. 190ft) and is a little over 5'6 from the centerline instead of the 8'6" stipulated in the BNSF/WAC table. After talking with the representatives of BNSF, we plan to mitigate the issue with additional signage, "no clearance", painting the face and edge of the platform, and striping the area needed so that nothing is inside it. The area on the opposite side is greater than the stipulated distance. The BNSF representatives have approved this contingent upon the exemption granted by the UTC.

Cordially,

Brian Dent, Operations Manager
Cascadia Metals, Inc. / NAP Steel Ltd.
