**Re: Advice No. 2016-29
Electric Tariff Filing - Filed Electronically**

Dear Mr. King:

Pursuant to RCW 80.28.060, WAC 480-80-101 and -105, please find enclosed for filing the following proposed revisions to the WN U-60, Tariff G for electric service of Puget Sound Energy ("PSE"):

First Revision Sheet No. 195 – Schedule No. 195: Electric Vehicle Charger Incentive

The purpose of this filing is to extend the pilot incentive by six months to April 30, 2017. The six-month extension allows for PSE and UTC Staff to continue work on PSE's electric vehicle pilot program in light of the on-going Commission investigation regarding policy issues related to the implementation of RCW 80.28.360, electric vehicle supply equipment under Docket No. UE-160799. PSE is not proposing changes to customer incentives, total number of customers eligible or program structure. The total budget for the program will remain under that originally discussed in UE-131585.

UTC Staff anticipates receiving additional public comment on Docket No. UE-160799 early next year and felt that this docket would be resolved before April 30, 2017. PSE will work diligently with UTC Staff to file future electric vehicle programs consistent with the learnings under the current electric vehicle pilot program and the outcome of Docket No. UE-160799 after the resolution of Docket No. UE-160799.

The tariff sheet described herein reflects an issue date of October 21, 2016, and an effective date of November 21, 2016. Posting of proposed tariff changes, as required by law and the Commission's rules and regulations, is being completed immediately prior to or coincident with the date of this transmittal letter through web, telephone and mail access in accordance with WAC 480-100-193.

Please contact Benjamin Farrow at (425) 456-2541 or Mei Cass at (425) 462-3800 for additional information about this filing. If you have any other questions please contact me at (425) 456-2110.

Sincerely,

ERIC E ENGLERT
