RE: Bainbridge Disposal, Inc., G-143, Commodity Credit Revision Filing

We are filing proposed revised tariff, Pages No. 2 Check Sheet, No. 22 Item 100-Residential Service-Monthly Rates and No. 27 Item 105-Multi-Family Service-Recycling for Tariff No.16 on behalf of Bainbridge Disposal, Inc., G-143.

This filing proposes a residential recycling commodity adjustment increase of \$.63 from the previous debit of \$.05 per customer to a debit of \$.68 per customer. This filing also proposes a multi-family recycling commodity adjustment increase of \$.29 from the previous debt of \$.03 per customer to a debit of \$.32 per customer.

These changes are due to the overall reduction in commodity values since the previous commodity credit adjustment on April 1, 2016. During 2016 the Company did not receive any compensation for the co-mingled product from the processor and paid the processor over \$62,000 during the year. Because the current Company rates incorporated recycling disposal fees of approximately \$34,000, the Company is not requesting a debit allowance for this amount, and has only included fees in excess of the approximately \$34,000 in costs already incorporated into rates.

We are requesting the proposed effective date for the tariff revisions to be April 1, 2017. We are requesting less than statutory notice for this filing due to time constraints of just completing the Company's rate case effective February 1 which included information that needed to be incorporated into the commodity adjustment filing. We worked with staff to ensure an accurate calculation of the commodity debit.

Enclosed for staff review are the accounting work papers for this filing and pricing support. The Company will notify all customers during the normal billing process.

A copy of this transmittal letter will be mailed to the Chair of the Kitsap County, WA Commissioners and City Manager of the City of Bainbridge Island, WA.
